Dear FCC Commissioners: Please do not allow the Comcast-Time Warner Cable merger to go forward. The merger would increase Comcast's service area to almost two-thirds of the U.S. This is the wrong direction to take an industry that has dismal customer service and gouges its customers. Check out the on-line ratings for cable companies and see for yourself. This merger would only make a bad situation worse. Additionally, I think it is unwise to have our nation's high-speed internet service dominated by one corporation. Sincerely, Lisa Ganaja .
