RE: MB Docket No. 14-57

Dear Chairman Wheeler:

In my time as Mayor of Nashua, NH, I have sought new ways to motivate and engage my fellow residents in our shared civic life, be it through volunteerism, serving on official boards and commissions or simply taking an active role in community development. As a corporate "resident," Comcast has been a leader in finding new ways to assist. I'd like to take a moment to share some of that experience as you consider approval of the company's merger with Time Warner Cable.

Comcast organizes one of the largest single-day volunteer events in Nashua each April - Comcast Cares Day - in which nearly every employee ventures out into the community to put in a day of service. This year, we collaborated on projects at The Nashua Boys and Girls Club, the Humane Society of Greater Nashua and Girls Incorporated. Comcast Cares Day engages not just Comcast employees but many of our major institutions - schools, libraries, parks - and their staff. It's a true community-wide event and sets a great tone for the spring and summer months.

Year-round, Comcast engages in meaningful projects centered around youth engagement, working with groups like the Boys & Girls Club, Big Brothers Big Sisters and Girls, Inc. These projects range from mentorship opportunities to training programs for technical and computer skills. This commitment to helping Nashua's next generation is incredibly valuable to us and speaks volumes about Comcast's corporate values.

As you weigh the costs and benefits of this proposed merger, please know that the cities and towns that stand to benefit from Comcast's entry into their communities will have the opportunity to work with a company that takes its civic responsibilities seriously and puts the full weight of the company behind reaching their goals.

Sincerely,

Donnalee Lozeau
