I would like for you to NOT allow the merger between Comcast and Time Warner. I Believe it further erodes our opportunity for choice in the marketplace and in our lives. The continuing consolidation of companies, especially ones that affect out day to day lives, just enslaves us to single corporate entities leaving us no choice to \"vote\" with our dollars. The cornerstone of America is freedom of choice. And I thought a free marketplace was about preventing monopolies and providing free choice to consumers. It's about businesses having to do their best to earn our business, not buy our business because we have nowhere else to go. That's not democracy or true capitalism. Whatever happened to no monopolies? A merger between these entities sells us to a corporation that will not have the public interest at heart, and it will leave us with few alternatives, if any. It will also contribute further to the rapidly widening income disparity. At this time, I can go to Comcast and ask for a reduction in my bill because I have another business to go to if I need to. With this merger, that will no longer be the case, and I will lose my ability, most likely, to have cable or be on the internet. I'm on the fence now, and if rates go up again, I'm sunk. And, whether I like it or not, which I don't, One can not survive in today's society without an internet connection. The merger between these two companies will greatly jeopardize a neutral and affordable internet. Thank you. Please disallow this merger. Please stop selling out the America People.
