This merger is a customer nightmare that will: * Limit competition * Set the stage for yet another \"Too Big to Fail\" situation in which the taxpayers will bear the burden * Jeopardize Net Neutrality * Leave the door open to squash fledgling streaming companies * Raise my rates * Limit my viewing options * Limit what political voices get heard etc. etc. etc. . . . Look what's already happened in the media outlet industry: it has become hugely concentrated. I cannot see one advantage this merger will bring to myself or any other customer
