

7521805106.txt

I am a Direct TV customer and have been since Direct TV started. I live in a rural part of East TN, just outside of the small town of Luttrell. I watch RFDTV daily, and depend on it for information that have a impact on myself, my family, and our farm. I also had it put into my elderly parents home a few years ago, and they have also become daily viewers as well. If Direct TV does not keep RFD TV as a option for us to watch, then I will cancel my Direct TV, and also cancel for my parents, and will switch to Dish Network. I really wish that Direct TV would also pick up RFDTV's sister network, Rural TV as well. Please insist that Direct TV/ATT make room in their programing for at least 1 network that has such a positive impact on rural America, that is not being served or addressed by any other network. Thank yall,
Scott Thorpe Luttrell, TN Semper Fi
