I am writing in regards to the merger of Comcast and Time Warner. I do not think it is wise for them to be a merger between these two company's . If we only have a few cable companies it will not keep the price down and they will have control of price and shows we watch. They will have a monopoly on the cable and what shows we watch. President Regan broke the monopoly of the telephone companies in the 80's and if you let them merge they will have a too much control.

We like to watch the channel RFD . We live in a rural farming community . Our football field is in the middle of a corn or soybean bean field depends on which is planted that year and the only traffic jam we have is from combines and tractors. We enjoy the channel and it show and farm information and its enjoyable shows.
