Gentlemen: Please continue to keep RFD-TV Channel for our viewing pleasure. It is one of the few channels that we watch. It is wholesome viewing and refreshing to see sometimes when the world news is so terrible. We are out in the wheat farms and have raised horses for many years.

The programming is informational, interesting, and also entertaining. That is one reason we have DIRECTV. My husband is now disabled and watches RFDTV, The Western Channel (Encore) and the Military Channel. If we lose RFDTV, we may as well go for a cheaper company. We have been customers for a long time and hope you will continue to keep such good quality television available to us with your company.
