I would like to state that I am not against the merger. But, I am truly opposed to allowing these companies to discontinue RFD TV and Rural TV Programming. It would truly be a tragedy for this type of family programming to be eliminated! This country was founded on the same basic principles that RFD TV and Rural TV represent. Their programming most certainly expresses the upmost in family programming, and allows those not as fortunate as I to see how family farming actually works. I cannot stress enough how important the programming that RFD TV, Rural TV and their independent affiliates is to myself and others related to the farming and agriculture business. As stated above, it also allows others not so fortunate to be exposed to the Rural Community and the basic principles this country was founded on. I have moved several times in my career, and I cannot stress enough how important I believe RFD TV, Rural TV and their independent programming is to all facets of the United States!!! As I stated above, I am not against the merger, but I would ask that you add a provision that guarantees that RFD TV, Rural TV and their independent affiliates would be available to their viewing audience and or subscribers.
