We, people that live in the country deserve the right to have a channel of the many many hundreds that is worth watching, It is clean, a family can watch together. without making the children go in the other room, or jumping up to change the channel when some trash comes on. I don't have any farm animals or raise crops, but there is so much more on RFDTV than that. I love the cooking shows, cowboy church, rodeos, and especially the music. Saturday night is my favorite from 5:30 pm till 1:00 am. RFDTV is the best channel on cable or satellite TV. I know there is another rural station under attack also, although I can't get it. They even televise the Rose Parade and do a better job than the networks. If you have never watched it, you should try it, you might find it worthwhile. Another thing that bothers me, why would they take the enjoyment of 1/4th the people in our nation, but put a station just for the middle easterners, and how many stations are totally Hispanic? Is our money, vote, presence not wanted? It's a shame when your own country, that you support, where many others don't, take from us and for what?
