RFD-TV is one of the few tv stations that you can watch with any member of your family regardless of age. This channel is a wholesome American station that needs to continue broadcasting to the public. My entire family watches this channel for a variety of entertainment. Being a horse person, I love all of the programs that provide so much valuable information. Parelli, Clinton Anderson, Ken McNabb, just to name a few of the wonderful clinicians that provide hours of instructional information that is so valuable. The country music programs give us so much enjoyment that we sit on Saturday evening and watch all of the wonderful shows all evening long. Quite honestly, there aren't many stations worth watching these days. Dropping RFD-TV from Direct TV would be a tragedy! Please do not allow this to happen. Keep this programming up and running! Allow the trash to be removed and keep the clean and wholesome programs on for family's to be able to watch together. This station is truly a blessing.
