I don't want to lose RFD. I love that station. It is the main station that my family watches.

With all the sex and violence on television today, it is a very nice change to have quality entertainment like the kind featured on RFD that the whole family can enjoy... CLEAN TV!! There are still plenty of us out here who like that type of programming.

If DirectTV decides to get rid of RFD...our family will likely decide to get rid of DirectTV. We will go with a company who offers RFD.
