Dear Cable companies:

Please keep RFD TV going on your cable programming menu.

Myself and many Americans both those from rural communities and the cities in suburbia enjoy the agricultural -entertaining country programs on RFD TV. The heart of America lies in rural

people and their beloved country living. While I am a city person I love the charm of country programming as so do many others.

My family and my husbands family all came from farms! Tradition is the heart and soul of this country. Please search your hearts and do the right thing-Keep RFD on TV!!
