In relation to the Direct TV and AT&T merger, I feel that if this is going to cause a rate hike and less programming as I have already had billing issues that were never resolved as well as shows(stations) that I had paid for that have gone away and poor customer service with Direct and when dealing with AT&T for cell phone usage and having plans change which caused myself and other family members to leave due to once again rate hikes, I am not for the merger. Mergers are not always in the best interest of the customer but the interest of the company.
