Please do not let the AT&T merger with Direct TV wipe out rural programming such as RFDTV. In addition to Wilma and me, I am responding for my family, Tom Smith, Tammy Smith Moran, and Shawn Smith and their children, all living in separate households. It is very difficult for county folk and farm families to find high quality TV programming in WV as well as other rural areas of the US. RFDTV does a great job and must be allowed to remain in this merger. You have the power and authority to represent us and must do so or this conglomerate will not listen to us and will cancel this vital rural programming. Its educational value is a must for country folk and our children. Again, Please represent us in this most important process. Gary G. Smith and Family.
