

7521810705.txt

The FCC should allow the RFD programming to continue on Direct TV. One of the very few shows that you can sit and watch with the whole family without being ready to change the channel at any time due to the usual programs that are rated for the violence, foul language and such. Please do whatever it takes to continue offering RFD TV on Direct TV.
Good programming at any given time that should be able to continue.
