

7521810768.txt

We would like to ask that you continue rural programming on television. RFD TV is an important part of our lives and consists of about 75 percent of our television viewing. We go to this channel for our news and entertainment. Removing this programming would have a very negative effect on our lives. Please protect this source of programming. We appreciate your consideration in this matter and ask you to continue this programming.

Thank you.

Linda and Curtis Meth
