I'm filing a complaint about the ATT&T and DIRECTV merger. Apparently, RFD TV has been omitted from the programming in the merger. This is not good. In a world where we have no control over programs that are broadcasted, RFD is the one place I know that our family can enjoy clean family entertainment. When RFD is on, I don't have to check the rating of a program or worry about inappropriate language. Please step in and assure us that RFD TV will continue to be broadcasted if this merger goes through. If the merger goes through and RFD TV isn't a part of the programming, then we'll be unable to enjoy the station that has brought us YEARS of enjoyment because we are locked into a contract with DIRECTV. I'm counting on you to put family first and help us out.
