RFD-TV should be able to broadcast on any network or TV company that is in business. It is the only TV Programs that is informative and not all crimes and murders .It is the only station that we can watch country music on.No net work has and programming this good. I only watch news on the network stations that is enough crimes. I do watch RFD and my grandchildren also. Too much crime for them to watch on the network stations. It is bad when the government and FCC start telling you what you can and can not watch. Our Leaders have a lot to be desired. Leave RFD-TV on Direct.If not my Direct is gone
