

7521811940.txt

I am filing this to ask the FCC to protect RFDTV from being able to be took off the air. If we lose this station the Rural community has lost some wonderful and helpful programing, such as farming shows, and the cattle roundup, as well as family reunion. These shows and this station may not be important to the urban community, but to the rural community they are very important. So please join us in showing your support for this station by protecting it in this merger between AT&T and Direct TV.

Thank you for you Help
Mrs. Deborah D. Lewis
