

7521812118.txt

We are avid listeners of RFD TV. We enjoy their family friendly programming, the ag news, the horse programming for care and training of horses, the antique tractor shows, the classic country shows, and much more.

There are many others who also enjoy RFD TV's programming. We do not wish to see anyone deprived of watching and listening to programs of their choice. Viewers choices should not be limited to the choice of Cable Network CEO's who seem to be disinterested in the viewing choices of much of our country. We'd like to see a variety of choices in TV programming, including RFD TV, not limited choices.
