At a friend's request I am asking that you do not delete the station that they want on after your merger.

"I request that the RFDTV station remain on the air after your merger. RFDTV is the most wholesome and American station I have ever watched. It is a station that I would not hesitate to let my grandchildren watch because there is no foul language and it is an informative and educational station that covers all aspects of the American way of rural life. Thank you for your consideration."
