

7521812574.txt

RFD tv is the only way to stay connected to rural USA away from where I live. to take it away would take away several programs that my 86 year old dad loves to watch, where other programming doesn't have. This channel has the values I was raised up with and America should have a lot more stations similar to this, rather than junk that is allowed on 90 percent on t.v. today. Please Leave RFD ON DIRECT TV,
