To whom it may Concern,

Please support Rural Programming. It is time to DIVERSIFY programming, and be INCLUSIVE of our Rural and small town viewers. We should not be exclusive towards them.

I am fearful that the merger of A.T. and T and Direct TV will result in the same business policies which are unfortunately part of the Comcast and Time Warner agenda. I am fearful that a merger such as this gives these conglomerates too much power. This will not be beneficial for the viewers in America.

I ask that you please oppose this merger. Please support Rural Programming! Thank you for attention.
