

7521813204.txt

Rfd Tv is providing more than entertainment. It has programming to help the average person with food production, older farming methods that would be necessary should adversity strike. This proposed merger with ATT and Direct Tv should not be allowed to happen without RFDtv. They have the most anti American channels on now, Algezerra, and CNN. These are the most radical anti American channels in America today. Please protect our rural TV networks.
