I would like to express my concerns regarding rural TV, specifically RFD-TV. As a farming family, we enjoy several of the shows that air on RFD-TV. They are not only educational, they are clean family shows. This we appreciate very much. With so much trash on television today, I can count on RFD to encourage good family values on their shows.

My husband watches Ag Day, Ag Phd and US Farm Report on a daily basis. We also enjoy Cattleman to Cattleman as well as many other shows. These shows hold valuable information on many different topics which help us to make our operation successful.

We would very much appreciate your support of the Rural Television stations.

Sincerely

Kimberly Jirik
