Protect rural & independent programming & RFD-HD & RFD-TV from being cut from the basic packages of RFD-TV with the mergers of these cable companies. Rural lifestyles & country living is an important fact that is so often forgotten or overlooked by our leaders, Congress & urban lifestyle. Without our ranchers & farmers, life wouldn't exist as we know it. Have these cable companies put contracts in place to save rural & independent programs & not put RFD-TV off the cable networks.
