I OPPOSE THIS MERGER WHICH WANTS TO ELIMINATE RURAL TV PROGRAMING. WE NEED CHOICE IN PROGRAMING! I am tired having to pay for programing I don't want and feel has a negative impact on our young people. I think it is time our government listens to the hardworking rural people of this country.. We watch RFDTV on direct TV and think if they want to get rid of something they could chose one of the channels that degrade our society with its violent and sex oriented shows You don't have to live on a farm to enjoy rural programs. They keep you in touch with what is real in this country. I am 67 yrs old. It is all about greed and money not what is good for the people of this nation! Pat
