I am opposed to the Comcast / Time Warner Cable merger because it will harm consumers like me by giving one company too much control over the cable TV and Internet markets. I am a Comcast customer, and I know that they are already highly overpriced, with rates rising automatically every year, and unsatisfactory service. . If you allow the merger to go through, Comcast will \* control almost 60% of the nation's cable TV subscribers, which is about five times more than any other cable company and 50 percent more than the largest satellite TV provider. \* control nearly 40% of the U.S. broadband Internet market. \* have too much power over the programming that reaches consumers, especially since Comcast already owns NBC Universal and many cable and broadcast channels \* give the company too much power to raise rates for its competitors and those higher prices will likely get passed on to consumers \* combine two companies that have consistently scored poorly in Consumer Reports annual customer satisfaction survey.
