I am opposed to the Comcast / Time Warner Cable merger because it will harm consumers like me by giving one company too much control over the cable TV and Internet markets. If you allow the merger to go through, Comcast will * control almost 60% of the nation's cable TV subscribers, which is about five times more than any other cable company and 50 percent more than the largest satellite TV provider. * control nearly 40% of the U.S. broadband Internet market. * have too much power over the programming that reaches consumers, especially since Comcast already owns NBC Universal and many cable and broadcast channels * give the company too much power to raise rates for its competitors and those higher prices will likely get passed on to consumers * combine two companies that have consistently scored poorly in Consumer Reports annual customer satisfaction survey. Again, I feel it is not in the best interest of our country to place so much control over our communications medium into the hands of one corporation.
