I personally don't want a merger at all. I watch RFD and enjoy a lot of older programs as well as country music such as Marty Stewart and The Presley Show. I only watch this channel and the local stations. I enjoy these shows as they bring me to anxiously awaiting each week of programs. If this program is taken from Direct, I will change to whichever provider can have it in their lineup. I pay money to enjoy shows I like, not what other junk is on at night, most of which is violent. The networks keep increasing the prices, but want to take our favorite channels. Please consider keeping this terrific channel.
