Please require that DirecTV continue to keep RFDTV as one of its channels after the merger. While living in Tucson ? a major city of the USA, I continually watch RFDTV daily for programs that I enjoy. For them to discontinue RFDTV would be a great disservice to me. It would greatly limit the service I receive from DirecTV.

I enjoy the cultural programming that relates to country living and the financial information I receive is basically only covered by RFDTV. I am sure that I'm not the only one in this area that enjoys the programming, especially because there are so many within our County that are involved in raising livestock, enjoy rodeos and depend on information that comes through RFDTV and not available through other programming.

I would greatly appreciate that after the merger they be required for at least a couple years to carry the RFDTV programming that I can get from nowhere else. I am sure that they get enough revenue from all their other channels plus the fact that they get income from RFDTV, it will not hurt their business to continue to carry this programming.

Your consideration of this request would greatly pleased me.

Thank you sincerely for listening to this request,
Ronald Southwick
