

7521824293.txt

It remains very important in our country for ALL sides to be heard from. RFD TV and Rural TV channels are again being pushed out -again- by big city, big corporation, big government. The citizens that watch these channels may not be the majority, but they do produce the food and take care of the land for that very majority. Just because stations have smaller Nielsen rating, does not mean they are not important.

It is time to represent ALL the people, not just special interests or big money. Please make sure RFD TV and Rural TV are treated fairly in any and all upcoming corporate mergers.

Thank you.
