Re: *In the Matter of Applications of Comcast Corporation, General Electric Company and NBC Universal Inc. for Consent to Assign Licenses and Transfer Control of Licensees, MB Docket No. 10-56*

Dear Ms. Dortch:

Comcast Corporation (“Comcast”) hereby submits the following information regarding the standalone Broadband Internet Access Service condition in Appendix A § IV.D (the “Condition”) of the *Comcast-NBCUniversal Order*.¹ This letter contains certain information designated as Confidential (identified by [[brackets]]) and is being submitted pursuant to the *Compliance Protective Orders*.²

¹ *Applications of Comcast Corporation, General Electric Company and NBC Universal, Inc. For Consent to Assign Licenses and Transfer Control of Licensees*, Memorandum Opinion and Order. 26 FCC Rcd 4238 (MB 2011) (“*Comcast-NBCUniversal Order*”).

² *Applications of Comcast Corporation, General Electric Company, and NBC Universal, Inc. for Consent to Assign Licenses or Transfer Control of Licensees*, Protective Order for Compliance, 26 FCC Rcd 2045 (MB 2011) (“First Protective Order”); Second Protective Order for Compliance, 26 FCC Rcd 2052 (MB 2011) (“Second Protective Order”) (jointly, the “*Compliance Protective Orders*”).

Introduction

Pursuant to Condition § IV.D.3, Comcast is required to submit a report describing compliance with Condition § IV.D.1 regarding Comcast's provision of standalone Broadband Internet Access Service ("BIAS") and providing certain additional information upon any price adjustment of a standalone BIAS offering. Effective in August 2014, Comcast adjusted certain of its standalone BIAS tiers in certain service areas in which it offers BIAS in addition to those reported in its submission dated July 25, 2014.

Report

Comcast continues to offer standalone BIAS to customers throughout the service areas in which it offers BIAS.³ Those offerings include a standalone BIAS tier in each of its markets under the name "Performance Starter" that Comcast has provisioned to deliver 6 Mbps down and offers at the retail price of \$49.95 per month. Comcast also offers other standalone tiers of BIAS, at reasonable market-based prices, with speeds that correspond to those offered in its retail multi-product offerings in the relevant service area.⁴ Such standalone offerings are available on equivalent terms and conditions to the most comparable BIAS tier available in Comcast's multi-product offerings. Further detail is available in Exhibit A.

The aggregate number of standalone BIAS lines Comcast provisioned as of July 21, 2014 was [[]].⁵

³ Comcast offers BIAS to over 99 percent of homes passed by Comcast cable systems.

⁴ Comcast generally sells BIAS in three ways: (i) on a standalone basis; (ii) with discounted, multi-product pricing (such that the price for the Internet access service is reduced if the customer subscribes to one or more other Comcast products); and (iii) as part of bundles for which Comcast determines aggregate prices, without separate pricing for the individual products. As Comcast does not determine separate pricing for the individual products within a bundle, Parts I and II of Exhibit A set forth speeds and pricing only for standalone and multi-product BIAS offerings. For reference purposes, Part II of Exhibit A also provides pricing information for Comcast's National Triple Play Bundles, and pricing information for variations of those pricing plans that have been adopted in the Markets identified therein.

⁵ Comcast recently revised its methodology for counting and reporting customers who reside in multiple dwelling units that are billed under bulk contracts. For purposes of this submission, Comcast is reporting the aggregate number of standalone BIAS lines consistent with the methodology it has used in prior submissions. Comcast intends to continue reporting on this basis through the end of calendar year 2014. Thereafter, it will report the aggregate number of standalone BIAS lines provisioned based upon its more recently adopted methodology. Under

Parts I and II of Exhibit A set forth the standalone and multi-product BIAS speeds and pricing offered by Comcast to customers as of August, 2014 in Comcast's top 30 markets (which were determined as of July 31, 2014). The information reflects post-promotional pricing, and (in the case of the multi-product pricing) assumes that the customer continues to subscribe to one other product (video or voice) or all three products (video, voice, and Internet), as applicable.

Part III of Exhibit A sets forth, by company and to the best of Comcast's knowledge after review of those companies' websites, the standalone BIAS offerings of Comcast's principal competitors and the post-promotional pricing of such offerings. Comcast has identified principal competitors, their standalone BIAS offerings, and the pricing of such offerings as of June, 2014.

In addition, Comcast notes that, pursuant to Condition § XVI.2, Comcast offers BIAS under the name *Internet Essentials* throughout its service areas, including in each of the 30 markets referenced in Exhibit A. *Internet Essentials* is a comprehensive broadband adoption program that provides low-cost broadband access to households meeting the program's unique eligibility requirements.⁶ As this service tier is designed for a specific population with unique eligibility criteria and is subject to separate reporting under the *Comcast-NBCUniversal Order*, Comcast treats it separately from the generally available retail services that are the subject of this report. Subject to the program's eligibility requirements, *Internet Essentials* is available on both a standalone and multi-product basis, with no differentiation in price. Likewise, Comcast is offering a prepaid standalone BIAS product in a few cities on a trial basis. It has limited availability and has not been adopted widely, and therefore is not included in Exhibit A.⁷

the newly adopted methodology, the aggregate number of standalone BIAS lines provisioned as of July 21, 2014 was [[]].

⁶ The eligibility criteria are codified in Condition § XVI.2.f of the *Comcast-NBCUniversal Order* but have been expanded by Comcast since the program's inception.

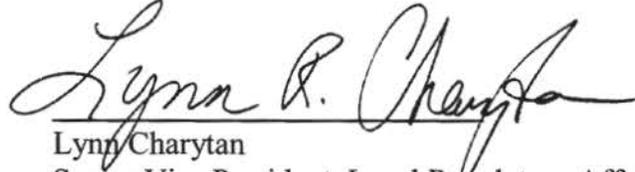

⁷ The service speed is 3 Mbps/768 kbps, and service can be purchased in 7 or 30 day increments.
