RFD-TV is an outstanding rural station bringing several programs that are of interest to people in Rural, Country & Agricultural communities. I receive market reports, educational programs, etc. on RFD-TV all the time and sure would hate to lose this information because of the mergers taking place. If this merger takes place, it will cut several million homes from receiving RFD-TV. This isn't right for everyone who enjoys this station. I am not opposed to merging of broadcasting companies but I don't want this merger to effect in anyway RFD-TV Programming.
