

RFD-TV

The RFD TV channel is a valuable information and entertainment asset for thousands of current viewers. This is true whether you grew up in the country or city, live in the country or live in the city.

We watch many RFD-TV programs every week, however, we especially enjoy the music programs.

It would be totally unfair to the thousands of subscribers who depend on RFD-TV for great entertainment if the FCC allows the merged companies to drop the broadcast of the RFD-TV channel.

To the FCC: Require the merged companies to keep RFD-TV in ALL areas of the country as a condition of being allowed to merge.
