Please leave RFD-TV in the line up of shows after the mergers. While ComCast maintains they concentrate on urban areas, why isn't RFD-TV looked at as urban friendly. If urbanites are unfamiliar with the rural way of life, then RFD-TV is a leaning tool. How about using it to educate youth.

I do not limit my viewing to RFD-TV, but I do watch it frequently. It's a welcome respite from seeing people being blown up, shot, and raped. I enjoy several shows on this channel and would be sorely disappointed if it is discontinued.

Thank You
