While I like many channels on my DirecTV service, RFD-TV is one that would truly be missed. Whether the merger goes through or not, please protect RFD-TV.

You don't have to live in the country to appreciate the horse training and many music shows we watch! Several friends who live in San Antonio own horses and even cattle nearby. There is no other channel providing the rural, family friendly programming like RFD-TV. Instead of dropping it, more effort should be spent creating more channels like it!
