I mistakenly informed you that my provider for government issued cell phone may have been the wrong company name (perhaps Safelink). I need to know if you show me as having two government issued cell phone numbers, one of my last phone numbers was 520-289-7426. I do not know who the provider was/is. I also mailed you copies of letters to three providers requesting them to close my account, however I may have asked Safelink to keep it open because I thought that was the right one but the right one is Assurance wireless. They wrote me a letter saying I had two phones, so they closed my account. I want only Assurance Wireless and I need some confirmation from your dept. saying I do not have any cell service with any one now, so I can reapply. My home phone is 520-777-5136
