I would rather use Netflix and Hulu to watch my shows. Time Warner I'd horrible.. I have had their services in the past and I was not happy with them at all. Within 6 months they had to replace our box 5 times then proceeded to blame us and attempted to charge us for another box.. we refused.. I think we should have a choice as free Americans to choose what internet/cable provider we want to use. Stop monopolies of big business.

I'm moving back to Ohio next month and I'm dreading the mess that will be involved in what should be a simple procedure of internet/cable purchases and or contracts
