

7521987596.txt

It is an injustice to take away RFD TV from the rural people that enjoy the updates on the farm markets, the newest technology in farm equipment and all the programs geared to horse lovers and everyday dairy, beef, goat and pig operations. This is a channel that you can watch with your whole family, and not only is it entertaining but it is also educational.

Please do not let the merger do away with such an important channel.
