Sirs:

Please maintain an open internet. I started a business 8 years ago. My small batch apparel manufacturing company would not be possible without internet access. I have spent almost 8 years in start up. Occasionally, I have been able pay employees on a parttime basis. I now have a large customer base and following. In spring of 2015, I will be hiring 2 fulltime employees. I wanted to build a strong business with lasting power. Please maintain an open internet. Thousands of businesses have emerged because of the internet. Thanks very much. Rhonda Griffin
