They should get rid of Sports Blackout Rule! We pay for premium sports packages in order to view & we cannot control which ones & games are often sold out! Also, if we pay for premium Sports Package to have access to all NHL games, we should be allowed to view all those games! Also, many people live in a different state than their favorite teams possibly because they relocated for a job & should be able to pay & view those games & not be forced to watch what the advertisers & leagues who have more \$ want them to watch! Give unlimited access to those willing to pay to get it!
