Dear FCC,

My name is Wesley S. Hickman and I live in Saint Louis Park, MN.

Net neutrality, the principle that Internet service providers (ISPs) treat all data that travels over their networks equally, is important to me because without it ISPs could have too much power to determine my Internet experience by providing better access to some services but not others.

A pay-to-play Internet worries me because new, innovative services that can't afford expensive fees for better service will be less likely to succeed.

Do you not understand that if you keep fucking with us we will become non-compliant with the system that you try so hard to manipulate? Is it not time for you to honestly show us that you are a governing body that is put in place to protect us from this kind of "Big Money Wins All" type of business practice? The Internet MUST STAY NEUTRAL!!! We are the subscribers. We are the customers and consumers. We have the power in numbers. It's our money that you take from us and call it your compensation checks. It's time for the FCC to face the fact that the people of this Nation will NOT stand for such an outrage! You must stand behind us and fight for what's right. Public opinion will not be swayed with smear campaigns and lies in the form of political fluff. Public opinion is your new GOD. Acceptance of this is unavoidable. Standing up for Net Neutrality is the type of openly public political move that, if done immediately and honestly, can ensure that the public backs you for the rest of the illegal and destructive activities the FCC is famous for conducting and supporting. You act like you RUN the place, but all you seem to do is RUIN it. Prove us wrong by making sure that the Internet permanently stays neutral.

Sincerely,

Wesley S. Hickman
