Dear FCC,

My name is Lindsay Szczesny and I live in Irving, TX.

Net neutrality, the principle that Internet service providers (ISPs) treat all data that travels over their networks equally, is important to me because without it ISPs could have too much power to determine my Internet experience by providing better access to some services but not others.

A pay-to-play Internet worries me because ISPs could act as the gatekeepers to their subscribers.

As a mother of 5 creative children, I want their internet of the future to be a place open for innovation. I want their playing field to be as open as possible when it comes to getting their voices out there!! I say no to favoring big companies in this regard.

Sincerely,

Lindsay Szczesny
