Dear FCC,

My name is ST JOHN MCKAY and I live in BROOKLYN, NY.

Net neutrality, the principle that Internet service providers (ISPs) treat all data that travels over their networks equally, is important to me because without it ISPs could have too much power to determine my Internet experience by providing better access to some services but not others.

A pay-to-play Internet worries me because ISPs could act as the gatekeepers to their subscribers.

It's time to remember that humans matter more than profit.

Sincerely,

ST JOHN MCKAY
