Dear FCC,

My name is Nicolas Martin and I live in Philadelphia, PA.

Net neutrality, the principle that Internet service providers (ISPs) treat all data that travels over their networks equally, is important to me because without it users may have fewer options and a less diverse Internet.

A pay-to-play Internet worries me because new, innovative services that can't afford expensive fees for better service will be less likely to succeed.

FUCK YOU FCC.

Sincerely,

Nicolas Martin
