Dear FCC,

My name is Ryan and I live in Binghamton, NY.

Net neutrality, the principle that Internet service providers (ISPs) treat all data that travels over their networks equally, is important to me because without it ISPs could have too much power to determine my Internet experience by providing better access to some services but not others.

A pay-to-play Internet worries me because ISPs could act as the gatekeepers to their subscribers.

People depend on the Internet for their jobs and for school. Taking this away will devastate them beyond belief do not do this to them people's livelihoods are at stake.

Sincerely,

Ryan
