Re: Biddeford Internet Corporation, Filer ID 824628

Application for Review
WC Docket No. 06-122

To Whom it May Concern:

Biddeford Internet Corporation respectfully submits these comments requesting consideration to waive the pay and dispute policy in this circumstance, for the following reasons:

1. The 2014 499-A was submitted with inadvertent mistakes, and a revised submission has been made and accepted.
2. The 2014 499-A was used by the FCC and USAC to calculate the May 2014 499-Q amount due. The revised submission was not used. The May 2014 499-Q has now been submitted with the correct amounts, but not yet acknowledged.
3. The inadvertent error in reporting the telecommunications revenue on the 2014 499-A has resulted in an USF invoice exceeding \$60K, wherein the actual correct amount due will be about one sixth of that amount.
4. There is legal precedent for this request, in the ruling on the Petition for Reconsideration by Ascent Media Group, Inc. DA 13-966. I have attached this ruling for your convenience.

Thank you for your consideration in this matter.
