Dear FCC,

My name is Alex and I live in Scottsdale, AZ.

Net neutrality, the principle that Internet service providers (ISPs) treat all data that travels over their networks equally, is important to me because without it ISPs could have too much power to determine my Internet experience by providing better access to some services but not others.

A pay-to-play Internet worries me because new, innovative services that can't afford expensive fees for better service will be less likely to succeed.

The Internet needs to stay open and free, we are in a society today where information and creativity drive our markets. If we close this down we will be going back to the old days of the auto industry's way of thinking (i create, they buy). Now days people have options and this is BS - PLEASE PLEASE PLEASE PLEASE PROTECT INTERNET NEUTRALITY

Sincerely,

Alex
