Prepaid Service

Prepaid Calling Cards and Debit Accounts

Where offered by the Confinement Facility, Inmates may either purchase a Prepaid Calling Card or set up a Prepaid Debit Account for calls made by the Inmate User or Authorized User. Prepaid Calling Cards and Debit Accounts provide an alternative method to make calls and are designed for those Inmates who prefer to prepay for their calls. Calls are made by dialing a special access dialing sequence that connects directly to the Company’s network at the Confinement Facility. A valid Authorization Code must be entered to access the account.

The Company’s system automatically informs the Inmate User or Authorized User of the Prepaid Balance remaining on the Prepaid Calling Card or in the Prepaid Debit Account, and provides prompts to place the call by entering the destination telephone number with area code. Network usage is deducted from the Prepaid Balance on a real time basis as the call progresses. Applicable state taxes and fees are included in the rates and charges for the calls made. On Prepaid Calling Card and Prepaid Debit Account calls, when the Prepaid Balance is one minute prior to depletion, the Inmate User or Authorized User will be interrupted with such an announcement.

Prepaid Calling Card and Debit Account services are available twenty-four (24) hours a day, seven (7) days per week to all terminating locations serviced. Access to such telephone services by an Inmate User may be subject to time-of-day an usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest one (1) cent on a per call basis. Prepaid Balances are not charged for incomplete calls.

Prepaid Calling Cards

The Confinement Facilities that offer the option of Prepaid Calling Cards may purchase Prepaid Calling Cards directly from the Company. Inmates then purchase the Cards from authorized personnel at the Confinement Facilities. The Company does not engage in direct monetary transactions with the Inmate. The Inmate may purchase a Prepaid Calling Card in denominations determined by the Confinement Facility. Prepaid Calling Cards are offered only to Inmates at Confinement Facilities and not to the general public. Prepaid Calling Cards are valid for one hundred eighty (180) days from the date of first usage. Unused Prepaid Balances may be used by the Inmate User or Authorized User following release from the Confinement Facility only through the Company’s network by dialing a special toll free access number with automatically connects the call to the Company’s network. Unused Prepaid Balances are not refundable nor may Prepaid Calling Cards be replenished upon the depletion of the Prepaid Balance. Inmates may purchase additional cards, as permitted by their Confinement Facility.

Prepaid Calling Cards and Debit Accounts, Continued.

Prepaid Debit Accounts

For a Prepaid Debit Account, the Inmate may set up the account through the Confinement Facility administrators with an initial payment typically through the Inmate’s commissary account, in those Confinement Facilities where this service is available. Upon the depletion of the Prepaid Balance, the Prepaid Debit Account may be replenished by depositing funds into the Account via the Confinement Facility administrator. Prepaid Debit Accounts are considered dormant if there is no activity for one hundred eighty (180) days following the last call made. Inactive accounts will be removed from the Company’s system. In conjunction with their release from the Confinement Facility, the Inmate may request a refund from the Confinement Facility administrator.

AdvanceConnect Accounts

End Users who prefer to pay in advance for Collect Calls that originate from Confinement Facilities, or else if the End User’s local exchange carrier does not have a billing and collection agreement with the Company or its intermediary, may set up an AdvanceConnect Account with the Company with a minimum initial fifty dollar ($50) payment. The Account is set up with the initial payment and may be replenished by the End User. Applicable state taxes and fees are calculated and deducted from the balance at the conclusion of the call.

When the balance in an AdvanceConnect Account reaches twenty dollars ($20) or below, the End User will receive an automated courtesy call from the Company notifying the End User with such an announcement. If the End User’s balance reaches zero prior to replenishment of the Account, the End User will be blocked from receiving further calls from any Confinement Facility served by the Company until the balance is replenished or an alternative billing arrangement is made.

The End User may request a refund of the available balance in the AdvanceConnect Account either by written request to the Company or by contacting the Company at its toll free telephone number once the End User verifies certain account information. Any such unused balances will expire in one hundred eighty (180) days following the last call made, unless the balance is either fully depleted or a refund has been requested. Refunds are subject to a processing fee of up to $4.95 and no refunds will be issued for accounts reflecting a balance of $4.95 or less; this policy applies only to accounts established on or after November 1, 2008. No refunds of unused balances will be issued after the expiration date.

AdvanceConnect Account service is available twenty-four (24) hours a day, seven (7) days a week to all terminating locations served. Access to such services by the Inmate User may be subject to time-of-day and usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest one (1) cent on a per call basis. Balances are not charged for incomplete calls.

Wireless Administration Fee – a monthly fee of up to $3.99 is applicable to any AdvanceConnect account with a wireless telephone number included as a number authorized to receive calls. This fee applies once per month, per account regardless of the number of wireless telephone numbers authorized. The fee amount will be deducted from the AdvanceConnect account balance on a monthly basis as long as a wireless number remains on the AdvanceConnect account. As of the initial effective date of this fee, existing AdvanceConnect accounts with existing authorized wireless numbers will be Grandfathered and the Wireless Administration Fee will not apply. If an existing AdvanceConnect account adds or changes a wireless number on the account, the Wireless Administration Fee will apply going forward.

Inmate Debit

Inmate Debit is a prepaid telephone account offering made available to Inmates by the Company when permitted by the Confinement Facility. Inmate Debit provides an alternative method for Inmates to prepay for and make calls. An Inmate Debit account associated with the Inmate’s Personal Identification Number (PIN) is automatically established by the Company. Inmates fund and replenish their Inmate Debit account through electing to transfer funds from either their facility’s inmate trust fund or commissary account to their Inmate Debit account. Inmate Debit accounts may also be funded by inmate friends and family members via the Company’s points-of-sale. Funds placed in this account become the property of the inmate.

Inmate Debit calls are processed by dialing a special access dialing sequence that connects directly to the Company’s network at the Confinement Facility. Inmates must enter a valid Authorization Code to access their Inmate Debit account. The Company’s system automatically informs the Inmate of the prepaid balance remaining on the Inmate Debit account prior to each call, provides prompts to place the call by entering the destination telephone number, and informs the Inmate of the rates for the call being attempted. Call charges are deducted from the prepaid account balance on a real-time basis as the call progresses. Applicable state taxes and fees are in addition to the rates and charges for calling service. During an Inmate Debit call, when the prepaid account balance is one minute prior to depletion, the Inmate will be interrupted with such an announcement.

Inmate Debit services are available twenty-four (24) hours a day, seven (7) days per week to all terminating locations serviced. Access to such telephone services by an Inmate may be subject to time-of-day and usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest one (1) cent on a per call basis. Prepaid balances are not charged for incomplete calls.

Refunds of unused Inmate Debit account balances are issued by the entity controlling the actual cash deposits, which is either the Company, the commissary, the Confinement Facility or its agent, depending on the specific arrangements, unless otherwise directed by state law. Depending on the entity issuing the refund, refund fees and/or minimum refund amounts may apply. The prepaid balance expires ninety (90) days from the date of the last call placed on the Inmate Debit account unless alternative arrangements are expressly requested by the Confinement Facility. No refunds of unused balances will be issued after the expiration date.

TARIFF FORMAT

A. **Sheet Numbering** – Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.

2.1.1.A.1.(a).
2.1.1.A.1.(a).I
2.1.1.A.1.(a).I.(i)
2.1.1.A.1.(a).I.(i).(1).

C. **Check Sheets** – When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some sheets).

D. **Explanation of Symbols** – When changes are made in any tariff sheet, a revised sheet will be issued replacing the tariff sheet affected. Changes will be identified on the revised sheet(s) through the use of the following symbols:

SECTION 3 – DESCRIPTION OF SERVICE

3.1 General

Securus Technologies, Inc. provides automated operator assisted calling for collect calls from Inmates at Confinement Facilities. With the exception of Prepaid Service, responsibility for payment of charges for calls must be accepted by the End User. Service is available 24 hours per day, seven days a week.

3.2 Timing of Calls

3.2.1 Long distance usage charges are based on actual usage of Securus’s network. Timing of a call begins when the End User makes a positive acceptance of the charges for the call.

3.2.2 Chargeable time for a call ends upon disconnection by either party.

3.2.3 The minimum call duration and initial period for billing purposes is one minute.

3.2.4 Unless otherwise specified in this tariff, for billing purposes usage is measured and rounded to the next higher full minute.

3.2.5 No charges apply for incomplete calls or for calls to End Users who do not make a positive acceptance of the charges for the call (calls are terminated upon the End User’s refusal to accept responsibility for charges).
SECTION 3 – DESCRIPTION OF SERVICE, CONTINUED

3.3 Calculation of Distance

Usage charges for all mileage sensitive products are based on the airline distance between the serving wire center locations associated with the originating and terminating points of the call.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the serving wire centers as defined by BellCore (Bell Communications Research), in the following manner:

Step 1 - Obtain the "V" and "H" coordinates for the serving wire center of the originating and the destination point.

Step 2 - Obtain the difference between the "V" coordinates of each of the wire centers. Obtain the Difference between the "H" coordinates.

Step 3 - Square the differences obtained in Step 2.

Step 4 - Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5 - Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.

Step 6 - Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating serving wire centers of the call.

Formula:

\[
\frac{\sqrt{(V_1 - V_2)^2 + (H_1 - H_2)^2}}{10}
\]
SECTION 4 – RATES

4.1 General

Charges for calls on Securus’s service are computed and billed individually for each call placed through the Company. Charges are computed on an airline mileage basis as described in Section 3.3 of this tariff.

Rates vary by mileage band, time of day, and day of week. Charges also vary based on call duration.

Calls are billed based on usage of Securus Technologies, Inc.’s service. No installation charges or fixed monthly recurring charges apply.

4.1.1 Pay Telephone Use Charge

An undiscountable per call charge of $0.60 is applicable to all intrastate, interstate and international calls that originate from any domestic pay telephone used to access the Company’s services. This surcharge, which is in addition to standard usage charges and any applicable service charges and surcharges associated with the Company’s services, applies for the use of the instrument used to access the Company’s service and is unrelated to the service accessed from the pay telephone. This charge does not apply to calls placed from pay telephones which the caller pays for the call by inserting coins during the progress of the call.

4.1.2 SECUREvoice™

This charge may apply to automated calls placed by inmates of confinement facilities when such calls are provided through Securus Technologies, Inc.’s own processing equipment. SECUREvoice™ provides validation of inmate personal identification numbers (PINs) through voice verification technology for purposes of improved security and reduced potential of fraud and consumer harassment by inmates. Where installation of SECUREvoice™ is requested by confinement facilities, a per call service charge of $0.25 applies in addition to all applicable message charges, operator assistance service charges and other miscellaneous service charges.

4.1.3 Return Check Charge

A return check charge of $25.00 will be assessed for checks returned for insufficient funds.

4.1.4 Credit Card/Check-by-Phone Payment Processing Fee

A payment processing fee in the amount of $6.95 is applicable to credit card payments and check-by-phone payments submitted to the Company. This fee does not apply to payments mailed to the company or submitted via a customer’s online banking service.
SECTION 4 – RATES, CONTINUED

**Bill Statement Fee**

An undiscountable bill statement fee of $3.49 may be applied to an End User’s LEC bill in each month in which collect calls from Confinement Facilities are billed, regardless of the number of calls accepted. The bill statement fee is a monthly charge to recover some of the Company’s expenses associated with calls from Confinement Facilities served by the Company and that are billed through LECs. No fee will be assessed in any month if no collect calls are accepted. This fee will not be assessed on End Users that prepay for their services or those that are directly billed by the Company.

**Public Pay Telephone Rates**

Sent paid (i.e., coin) calls – Local: This charge has been deregulated by the Federal Communications Commission.

Sent paid (i.e., coin) calls – Long Distance: The rate is $0.25 per minute, with a four minute minimum.
SECTION 5 – PREPAID SERVICE

5.0 Prepaid Service

5.1 Prepaid Calling Cards and Debit Accounts

Where offered by the Confinement Facility, Inmates may either purchase a Prepaid Calling Card or set up a Prepaid Debit Account for calls made by the Inmate User or Authorized User. Prepaid Calling Cards and Debit Accounts provide an alternative method to make calls and are designed for those Inmates who prefer to prepay for their calls. Calls are made by dialing a special access dialing sequence that connects directly to the Company’s network at the Confinement Facility. A valid Authorization Code must be entered to access the account.

The Company’s system automatically informs the Inmate User or Authorized User of the Prepaid Balance remaining on the Prepaid Calling Card or in the Prepaid Debit Account, and provides prompts to place the call by entering the destination telephone number with area code. Network usage is deducted from the Prepaid Balance on a real time basis as the call progresses. Applicable state taxes and fees are included in the rates and charges for the calls made. On Prepaid Calling Card and Prepaid Debit Account calls, when the Prepaid Balance is one minute prior to depletion, the Inmate User or Authorized User will be interrupted with such an announcement.

Prepaid Calling Card and Debit Account services are available twenty-four (24) hours a day, seven (7) days per week to all terminating locations serviced. Access to such telephone services by an Inmate User may be subject to time-of-day an usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest one (1) cent on a per call basis. Prepaid Balances are not charged for incomplete calls.

5.1.1 Prepaid Calling Cards

The Confinement Facilities that offer the option of Prepaid Calling Cards may purchase Prepaid Calling Cards directly from the Company. Inmates then purchase the Cards from authorized personnel at the Confinement Facilities. The Company does not engage in direct monetary transactions with the Inmate. The Inmate may purchase a Prepaid Calling Card in denominations determined by the Confinement Facility. Prepaid Calling Cards are offered only to Inmates at Confinement Facilities and not to the general public. Prepaid Calling Cards are valid for one hundred eighty (180) days from the date of first usage. Unused Prepaid Balances may be used by the Inmate User or Authorized User following release from the Confinement Facility only through the Company’s network by dialing a special toll free access number which automatically connects the call to...

the Company’s network. Unused Prepaid Balances are not refundable nor may Prepaid Calling Cards be replenished upon the depletion of the Prepaid Balance. Inmates may purchase additional cards, as permitted by their Confinement Facility.

5.1.2 Prepaid Debit Accounts

For a Prepaid Debit Account, the Inmate may set up the account through the Confinement Facility administrators with an initial payment typically through the Inmate’s commissary account, in those Confinement Facilities where this service is available. Upon the depletion of the Prepaid Balance, the Prepaid Debit Account may be replenished by depositing funds into the Account via the Confinement Facility administrator. Prepaid Debit Accounts are considered dormant if there is no activity for one hundred eighty (180) days following the last call made. Inactive accounts will be removed from the Company’s system. In conjunction with their release from the Confinement Facility, the Inmate may request a refund from the Confinement Facility administrator.

5.2 AdvanceConnect Accounts

End Users who prefer to pay in advance for Collect Calls that originate from Confinement Facilities, or else if the End User’s local exchange carrier does not have a billing and collection agreement with the Company or its intermediary, may set up an AdvanceConnect Account with the Company with a minimum initial fifty dollar ($50) payment. The Account is set up with the initial payment and may be replenished by the End User. Applicable state taxes and fees are calculated and deducted from the balance at the conclusion of the call.

When the balance in an AdvanceConnect Account reaches twenty dollars ($20) or below, the End User will receive an automated courtesy call from the Company notifying the End User with such an announcement. If the End User’s balance reaches zero prior to replenishment of the Account, the End User will be blocked from receiving further calls from any Confinement Facility served by the Company until the balance is replenished or an alternative billing arrangement is made.
SECTION 5 – PREPAID SERVICE, CONTINUED

5.0 Prepaid Service (Continued)

5.2 AdvanceConnect Accounts, Con’t

The End User may request a refund of the available balance in the AdvanceConnect Account either by written request to the Company or by contacting the Company at its toll free telephone number once the End User verifies certain account information. Any such unused balances will expire in one hundred eighty (180) days following the last call made, unless the balance is either fully depleted or a refund has been requested. Refunds are subject to a processing fee of up to $4.95 and no refunds will be issued for accounts reflecting a balance of $4.95 or less; this policy applies only to accounts established on or after November 1, 2008. No refunds of unused balances will be issued after the expiration date.

AdvanceConnect Account service is available twenty-four (24) hours a day, seven (7) days a week to all terminating locations served. Access to such services by the Inmate User may be subject to time-of-day and usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest one (1) cent on a per call basis. Balances are not charged for incomplete calls.

Wireless Administration Fee – a monthly fee of up to $2.99 is applicable to any AdvanceConnect account with a wireless telephone number included as a number authorized to receive calls. This fee applies once per month, per account regardless of the number of wireless telephone numbers authorized. The fee amount will be deducted from the AdvanceConnect account balance on a monthly basis as long as a wireless number remains on the AdvanceConnect account. As of the initial effective date of this fee, existing AdvanceConnect accounts with existing authorized wireless numbers will be Grandfathered and the Wireless Administration Fee will not apply. If an existing AdvanceConnect account adds or changes a wireless number on the account, the Wireless Administration Fee will apply going forward.
SECTION 5 – PREPAID SERVICE, CONTINUED.

5.0 Prepaid Service (Continued)

5.3 Inmate Debit

Inmate Debit is a prepaid telephone account offering made available to Inmates by the Company when permitted by the Confinement Facility. Inmate Debit provides an alternative method for Inmates to prepay for and make calls. An Inmate Debit account associated with the Inmate’s Personal Identification Number (PIN) is automatically established by the Company. Inmates fund and replenish their Inmate Debit account through electing to transfer funds from either their facility’s inmate trust fund or commissary account to their Inmate Debit account. Inmate Debit accounts may also be funded by inmate friends and family members via the Company’s points-of-sale. Funds placed in this account become the property of the inmate.

Inmate Debit calls are processed by dialing a special access dialing sequence that connects directly to the Company’s network at the Confinement Facility. Inmates must enter a valid Authorization Code to access their Inmate Debit account. The Company’s system automatically informs the Inmate of the prepaid balance remaining on the Inmate Debit account prior to each call, provides prompts to place the call by entering the destination telephone number, and informs the Inmate of the rates for the call being attempted. Call charges are deducted from the prepaid account balance on a real-time basis as the call progresses. Applicable state taxes and fees are in addition to the rates and charges for calling service. During an Inmate Debit call, when the prepaid account balance is one minute prior to depletion, the Inmate will be interrupted with such an announcement.

Inmate Debit services are available twenty-four (24) hours a day, seven (7) days per week to all terminating locations serviced. Access to such telephone services by an Inmate may be subject to time-of-day and usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest one (1) cent on a per call basis. Prepaid balances are not charged for incomplete calls.

Refunds of unused Inmate Debit account balances are issued by the entity controlling the actual cash deposits, which is either the Company, the commissary, the Confinement Facility or its agent, depending on the specific arrangements, unless otherwise directed by state law. Depending on the entity issuing the refund, refund fees and/or minimum refund amounts may apply. The prepaid balance expires ninety (90) days from the date of the last call placed on the Inmate Debit account unless alternative arrangements are expressly requested by the Confinement Facility. No refunds of unused balances will be issued after the expiration date.

TARIFF FORMAT

A. **Page Numbering** – Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between Page 14 and 15 would be 14.1.

B. **Page Revision Numbers** – Revision numbers also appear in the upper right corner of each Page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14.

C. **Paragraph Numbering Sequence** – There are various levels of paragraph coding. Each level of coding is subservient to its next higher level:

```
2
2.1
2.1.1
2.1.1.1
```

D. **Check Sheets** – When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. An asterisk designates all revisions made in a given filing (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages). The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.
CHECK SHEET

Sheets 1 through 44 inclusive of this tariff are effective as of the date shown at the bottom of the respective sheet(s). Original and revised sheets as named below comprise all changes from the original tariff and are currently in effect as of the date on the bottom of this sheet.

2.3.8 Limitation of Liability

2.3.8.1 Nothing in this tariff shall be construed to limit the Company’s liability in cases of gross negligence or willful misconduct.
SECTION 2 – RULES AND REGULATIONS (CONTINUED)

2.4 Application for Service

2.4.1 Minimum Contract Period

The End User does not contract directly with the Company for service. No minimum service period applies to End Users. No notice is required by End Users to initiate use of Company’s service. Service is installed upon contractual agreement between the Confinement Facility and the Company. The contractual agreement specifies the terms and conditions of installation, termination of service, commission structure, and commission payment schedule. The contract does not alter the obligations of the Company to the End User, as described in this tariff.
SECTION 2 – RULES AND REGULATIONS (CONTINUED)

   2.4.2.2.A The total cost of installing and removing such facilities; or

   2.4.2.2.B The monthly charges for the entire initial contract period of the service ordered by the customer as provided in this tariff plus the full amount of any applicable installation and termination charges.

2.4.2.3 Where special construction of facilities has been started prior to the cancellation, and the Company has another requirement for the specially constructed facilities, no charge applies.
SECTION 2 – RULES AND REGULATIONS (CONTINUED)

2.5 Payment for Service

2.5.1 All charges due from the End User are payable to the billing agency duly authorized to receive such payments. Customers are not responsible for End User billing and are, therefore, not subject to disconnection for nonpayment of End User bills. Disconnection of End Users for nonpayment of bills will not occur since End Users do not contract directly with the Company for service. All bills will be rendered within sixty (60) days of the provision of service and are due and payable upon receipt or as specified on the End User’s bill.

The billing agency will follow the rules and regulations of the appropriate regulatory agency and the billing agency’s applicable tariff provisions concerning payment, billing, timely payment, treatment of delinquent amounts, late payment charges, and payment and collection efforts, except as otherwise provided by the regulatory agency (e.g. by waiver of rules). In those instances where the Company has no means to bill the End User through a billing agency, Company may offer to direct bill the End User or require End User to pay make prepayment for service. Should End User no longer desire to utilize Company’s service and a credit balance exists, such amount will be refunded at the End User’s request.
SECTION 2 – RULES AND REGULATIONS (CONTINUED)

2.5.2 The End User is responsible for payment of all charges for service furnished to the End User, except in the provision of Prepaid Service where the Inmate is responsible for payment. End User bills will include, where applicable, the amount of the net charge, stated by category, for local transmission service, ancillary services and equipment, toll service, information service, sales and excise tax and of any late payment charge together with the gross amount of the bill, with separate entries for total amounts current or in arrears.
SECTION 2 – RULES AND REGULATIONS (CONTINUED)

2.5.3 The Company reserves the right to require from an End User advance payments of charges. The advance payment will not exceed an amount equal to one month’s estimated charges for the service.

2.5.4 For Prepaid Service, the Inmate may either purchase a Prepaid Card or set up a Prepaid Debit Account for calls made by the Inmate User or Authorized User, which may be offered at the discretion of Confinement Facilities. Prepaid Service provides an alternative method to make calls and is designed for those who prefer to prepay for their calls. Calls are made by dialing a special access dialing sequence that connects directly to the Company’s network at the Confinement Facility. A valid Authorization Code must be entered to access the account.

The Company’s system automatically informs the Inmate User or Authorized User of the Prepaid Balance remaining on the Prepaid Card or in the Prepaid Debit Account, and provides prompts to place the call by entering the destination telephone number with area code. Network usage is deducted from the Prepaid Balance on a real time basis as the call progresses. Applicable state taxes and fees are included in the rates and charges for the calls made. When the Prepaid Balance is one minute prior to depletion, the Inmate User or Authorized User will be interrupted with such an announcement.

Prepaid Service is available 24 hours a day, seven days per week to all terminating locations serviced. Access to telephone service by an Inmate User may be subject to time of day and usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest penny on a per call basis. Prepaid Balances are not charged for incomplete calls. Prepaid Card service is not distance or time of day sensitive. Holiday discounts do not apply. Unused Prepaid Balances are not refundable nor may Prepaid Cards be replenished upon the depletion of the Prepaid Balance. Inmates may purchase additional cards, as permitted by their Confinement Facility. For a Prepaid Debit Account, upon the depletion of the Prepaid Balance, the Prepaid Debit Account may be replenished by depositing funds into the account via the facility administrator. Prepaid Debit Accounts are considered dormant if there is no activity for 180 days. Inactive accounts will be removed from the database. Following their release from the Confinement Facility, the Inmate may request a refund from the facility administrator.

The Company may or may not have an equivalent service in its tariff on file with the Commission, and the quoted ICB rates may be different than the tariffed rates. An ICB must be provided under contract to a customer and the contract filed (can be under seal) with the Commission. All customers have non-discriminatory access to requesting the service under an ICB rate.
SECTION 3 – DESCRIPTION OF SERVICES (CONTINUED)

3.4 Institutional Operator Assisted Calling

The services offered by the Company allow Inmate Users and Authorized Users of Confinement Facilities to place Collect Calls through an automated call processing system incorporating an automated operator and the resale of transmission services of other carriers. The call processing system prompts the Inmate User or Authorized User and the End User such that the call is completed without live operator assistance. Calls are placed on a collect-only basis to the End User, with exception of Prepaid Service, as provided in Sections 3.4.1.1 and 3.4.1.2.

Because the services offered hereunder are provided to Inmate Users and Authorized Users of Confinement Facilities or similar institutions, special stipulations may apply. These stipulations are designed to preserve the integrity and security of the facility, the safety of the public and to reduce fraud and harassment. When deemed appropriate by the facility administration, these include: providing outward only calls; providing 0+Collect Calls only for local, intraLATA toll and interLATA toll calls and blocking access to all other types or forms of calls; blocking access to local Directory Assistance (411), long distance Directory Assistance (555-1212), 911 calls, toll free numbers including 1-800, 700, 900, 950, 10XXX and any other telephone numbers the facility administration directs; limiting hours during which telephone service is available to Inmate Users and Authorized Users; and/or limiting call duration to a time interval established by the facility administration.
SECTION 3 – DESCRIPTION OF SERVICES (CONTINUED)

3.4.1 Prepaid Calling Cards and Debit Accounts

Where offered by the Confinement Facility, Inmates may either purchase a Prepaid Calling Card or set up a Prepaid Debit Account for calls made by the Inmate User or Authorized User. Prepaid Calling Cards and Debit Accounts provide an alternative method to make calls and are designed for those Inmates who prefer to prepay for their calls. Calls are made by dialing a special access dialing sequence that connects directly to the Company’s network at the Confinement Facility. A valid Authorization Code must be entered to access the account.

The Company’s system automatically informs the Inmate User or Authorized User of the Prepaid Balance remaining on the Prepaid Calling Card or in the Prepaid Debit Account, and provides prompts to place the call by entering the destination telephone number with area code. Network usage is deducted from the Prepaid Balance on a real time basis as the call progresses. Applicable state taxes and fees are included in the rates and charges for the calls made. On Prepaid Calling Card and Prepaid Debit Account calls, when the Prepaid Balance is one minute prior to depletion, the Inmate User or Authorized User will be interrupted with such an announcement.

Prepaid Calling Card and Debit Account services are available twenty-four (24) hours a day, seven (7) days per week to all terminating locations serviced. Access to such telephone services by an Inmate User may be subject to time-of-day an usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest one (1) cent on a per call basis. Prepaid Balances are not charged for incomplete calls.
SECTION 3 – DESCRIPTION OF SERVICES (CONTINUED)

3.4.1 Prepaid Calling Cards and Debit Accounts (Cont’d)

A. Prepaid Calling Cards

The Confinement Facilities that offer the option of Prepaid Calling Cards may purchase Prepaid Calling Cards directly from the Company. Inmates then purchase the Cards from authorized personnel at the Confinement Facilities. The Company does not engage in direct monetary transactions with the Inmate. The Inmate may purchase a Prepaid Calling Card in denominations determined by the Confinement Facility. Prepaid Calling Cards are offered only to Inmates at Confinement Facilities and not to the general public. Prepaid Calling Cards are valid for one hundred eighty (180) days from the date of first usage. Unused Prepaid Balances may be used by the Inmate User or Authorized User following release from the Confinement Facility only through the Company’s network by dialing a special toll free access number with automatically connects the call to the Company’s network. Unused Prepaid Balances are not refundable nor may Prepaid Calling Cards be replenished upon the depletion of the Prepaid Balance. Inmates may purchase additional cards, as permitted by their Confinement Facility.

B. Prepaid Debit Accounts

For a Prepaid Debit Account, the Inmate may set up the account through the Confinement Facility administrators with an initial payment typically through the Inmate’s commissary account, in those Confinement Facilities where this service is available. Upon the depletion of the Prepaid Balance, the Prepaid Debit Account may be replenished by depositing funds into the Account via the Confinement Facility administrator. Prepaid Debit Accounts are considered dormant if there is no activity for one hundred eighty (180) days following the last call made. Inactive accounts will be removed from the Company’s system. In conjunction with their release from the Confinement Facility, the Inmate may request a refund from the Confinement Facility administrator.
SECTION 3 – DESCRIPTION OF SERVICES (CONTINUED)

3.4.2 AdvanceConnect Accounts

End Users who prefer to pay in advance for Collect Calls that originate from Confinement Facilities, or else if the End User’s local exchange carrier does not have a billing and collection agreement with the Company or its intermediary, may set up an AdvanceConnect Account with the Company with a minimum initial fifty dollar ($50) payment. The Account is set up with the initial payment and may be replenished by the End User. Applicable state taxes and fees are calculated and deducted from the balance at the conclusion of the call.

When the balance in an AdvanceConnect Account reaches twenty dollars ($20) or below, the End User will receive an automated courtesy call from the Company notifying the End User with such an announcement. If the End User’s balance reaches zero prior to replenishment of the Account, the End User will be blocked from receiving further calls from any Confinement Facility served by the Company until the balance is replenished or an alternative billing arrangement is made.

The End User may request a refund of the available balance in the AdvanceConnect Account either by written request to the Company or by contacting the Company at its toll free telephone number once the End User verifies certain account information. Any such unused balances will expire in one hundred eighty (180) days following the last call made, unless the balance is either fully depleted or a refund has been requested. No refunds of unused balances will be issued after the expiration date.

AdvanceConnect Account service is available twenty-four (24) hours a day, seven (7) days a week to all terminating locations served. Access to such services by the Inmate User may be subject to time-of-day and usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest one (1) cent on a per call basis. Balances are not charged for incomplete calls.

Wireless Administration Fee – a monthly fee of up to $2.99 is applicable to any AdvanceConnect account with a wireless telephone number included as a number authorized to receive calls. This fee applies once per month, per account regardless of the number of wireless telephone numbers authorized. The fee amount will be deducted from the AdvanceConnect account balance on a monthly basis as long as a wireless number remains on the AdvanceConnect account. As of the initial effective date of this fee, existing AdvanceConnect accounts with existing authorized wireless numbers will be Grandfathered and the Wireless Administration Fee will not apply. If an existing AdvanceConnect account adds or changes a wireless number on the account, the Wireless Administration Fee will apply going forward.

SECTION 3 – DESCRIPTION OF SERVICES (CONTINUED)

3.4.3 Inmate Debit

Inmate Debit is a prepaid telephone account offering made available to Inmates by the Company when permitted by the Confinement Facility. Inmate Debit provides an alternative method for Inmates to prepay for and make calls. An Inmate Debit account associated with the Inmate’s Personal Identification Number (PIN) is automatically established by the Company. Inmates fund and replenish their Inmate Debit account through electing to transfer funds from either their facility’s inmate trust fund or commissary account to their Inmate Debit account. Inmate Debit accounts may also be funded by inmate friends and family members via the Company’s points-of-sale. Funds placed in this account become the property of the inmate.

Inmate Debit calls are processed by dialing a special access dialing sequence that connects directly to the Company’s network at the Confinement Facility. Inmates must enter a valid Authorization Code to access their Inmate Debit account. The Company’s system automatically informs the Inmate of the prepaid balance remaining on the Inmate Debit account prior to each call, provides prompts to place the call by entering the destination telephone number, and informs the Inmate of the rates for the call being attempted. Call charges are deducted from the prepaid account balance on a real-time basis as the call progresses. Applicable state taxes and fees are in addition to the rates and charges for calling service. During an Inmate Debit call, when the prepaid account balance is one minute prior to depletion, the Inmate will be interrupted with such an announcement.

Inmate Debit services are available twenty-four (24) hours a day, seven (7) days per week to all terminating locations serviced. Access to such telephone services by an Inmate may be subject to time-of-day and usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest one (1) cent on a per call basis. Prepaid balances are not charged for incomplete calls.

Refunds of unused Inmate Debit account balances are issued by the entity controlling the actual cash deposits, which is either the Company, the commissary, the Confinement Facility or its agent, depending on the specific arrangements, unless otherwise directed by state law. Depending on the entity issuing the refund, refund fees and/or minimum refund amounts may apply. The prepaid balance expires ninety (90) days from the date of the last call placed on the Inmate Debit account unless alternative arrangements are expressly requested by the Confinement Facility. No refunds of unused balances will be issued after the expiration date.

SERVICES AND RATE SCHEDULE

General

Service is offered to Inmates of Correctional Institutions in New Hampshire. Securus Technologies, Inc.'s (“Securus”) service provides automated operator assisted calling for collect calls. Responsibility for payment of charges for calls must be accepted by the Called Party. At the discretion of the institution's administration, service may be limited or restricted for reasons of fraud prevention, security or control.

Charges for calls on Securus’s service are computed and billed individually for each call placed through the Company. Rates vary by time of day and day of week. Charges also vary based on call duration. Calls are billed based on usage of Securus's service. No installation charges or fixed monthly recurring charges apply.

Timing of Calls

- Long distance usage charges are based on actual usage of Securus's network. Timing of a call begins when the Called Party accepts the charges for the call.
- Chargeable time for a call ends upon disconnection by either party.
- The minimum call duration and initial period for billing purposes is one minute.
- Unless otherwise specified in this Rate Schedule, for billing purposes usage is measured and rounded to the next higher full minute.
- No charges apply for incomplete calls or for calls to called parties who do not accept charges for the call (calls are terminated upon the Called Party's refusal to accept responsibility for charges.)

Institutional Collect-Only Calling Service

Institutional operator assisted service allows Inmates to place collect calls through an automated call processing system. The call processing system prompts the Inmate and the called party such that the call is completed without live operator assistance. Calls are placed on a collect-only basis to the called party. If a call is not accepted within five (5) seconds of the automated voice recording prompt, the automated recording is replayed a second time. If an acceptance digit is not received five (5) seconds after the second recording is completed, the call is terminated by Securus's system.

A number of special blocking and screening capabilities are available with institutional operator services provided by Securus. These capabilities allow Institutions to control Inmate access to telecommunications services, reduce fraudulent use of the Company's services, and eliminate harassing calls to persons outside the Institution.

For services provided to Inmates of Institutions, the following special conditions apply:

- Calls to "900", "976" or other pay-per-call services are blocked by Securus.
- At the request of the Institution, Securus may block Inmate access to toll-free numbers (e.g., 800, 888) and dialing sequences used to access other carriers or operator service providers (e.g., 950-XXXX, 10XXXX).
- At the request of the Institution, Securus may block Inmate access to "911", "411", or local operators reached through "0-" dialing.
- At the request of the Institution, Securus may block Inmate access to specific telephone numbers.
- Availability of Securus's services may be restricted by the Institution to certain hours and/or days of the week.
- At the request of the Institution, no notices or signage concerning the Company's services will be posted with its instruments. Information concerning Securus's services is provided to the administration of each Institution where the Company's services are offered. Inmates may obtain information regarding rates and charges by requesting such information from the Institution's administration.
- At the request of the Institution, Securus may impose time limits on local and long distance calls placed using its services.
- At the request of the Institution, equipment may be provided which permits monitoring of Inmate calls by legally authorized government officials.

SECUREvoice™

SECUREvoice™ provides validation of inmate personal identification numbers (PINs) through voice verification technology for purposes of improved security and reduced potential of fraud and consumer harassment by inmates. Where installation of SECUREvoice™ is requested by confinement facilities, a per call service charge of $0.25 applies in addition to all applicable message charges, operator assistance service charges and other miscellaneous service charges.

Bill Statement Fee

An undiscountable bill statement fee of $3.49 may be applied to an end user’s local exchange carrier bill in each month in which collect calls from confinement facilities are billed, regardless of the number of calls accepted. The bill statement fee is a monthly charge to recover some of the company’s expenses associated with calls from confinement facilities served by the company and that are billed through local exchange carriers. No fee will be assessed in any month if no collect calls are accepted. This fee will not be assessed on end users that prepay for their services or those that are directly billed by the company.

Return Check Charge

A return check charge of $25.00 will be assessed for checks returned for insufficient funds. Any applicable return check charges will be assessed according to the terms and conditions of the Company or its billing agent and pursuant to New Hampshire law.

Transaction Processing Fee

A convenience fee of up to $9.95 is applicable to credit and debit card payments submitted to the Company via the Securus automated system or via the Securus call center. A convenience fee in the amount of $7.95 is applicable to credit and debit card payments submitted to the Company via the Securus website. These fees do not apply to payments mailed to the company or submitted via a customer’s online banking service.

Location Validation Fee

At facilities where applicable, a four percent (4%) per-call surcharge will be applied to the base rate of all call types. The base rate of a call is set forth herein and does not include any applicable taxes that may apply to the call. The Location Validation Fee is applied to calls originating from facilities that have elected to utilize Securus’ Location Based Services technology and recovers the cost of verifying the geographic location of the called party for security purposes pursuant to Correctional Institution contracts. The Location Validation Fee will not be assessed on End Users who are billed for services through their LECs.

Prepaid Service

Prepaid Calling Cards and Debit Accounts

Where offered by the Confinement Facility, Inmates may either purchase a Prepaid Calling Card or set up a Prepaid Debit Account for calls made by the Inmate User or Authorized User. Prepaid Calling Cards and Debit Accounts provide an alternative method to make calls and are designed for those Inmates who prefer to prepay for their calls. Calls are made by dialing a special access dialing sequence that connects directly to the Company’s network at the Confinement Facility. A valid Authorization Code must be entered to access the account.

The Company’s system automatically informs the Inmate User or Authorized User of the Prepaid Balance remaining on the Prepaid Calling Card or in the Prepaid Debit Account, and provides prompts to place the call by entering the destination telephone number with area code. Network usage is deducted from the Prepaid Balance on a real time basis as the call progresses. Applicable state taxes and fees are included in the rates and charges for the calls made. On Prepaid Calling Card and Prepaid Debit Account calls, when the Prepaid Balance is one minute prior to depletion, the Inmate User or Authorized User will be interrupted with such an announcement.

Prepaid Calling Card and Debit Account services are available twenty-four (24) hours a day, seven (7) days per week to all terminating locations serviced. Access to such telephone services by an Inmate User may be subject to time-of-day and usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest one (1) cent on a per call basis. Prepaid Balances are not charged for incomplete calls.

Prepaid Calling Cards

The Confinement Facilities that offer the option of Prepaid Calling Cards may purchase Prepaid Calling Cards directly from the Company. Inmates then purchase the Cards from authorized personnel at the Confinement Facilities. The Company does not engage in direct monetary transactions with the Inmate. The Inmate may purchase a Prepaid Calling Card in denominations determined by the Confinement Facility. Prepaid Calling Cards are offered only to Inmates at Confinement Facilities and not to the general public. Prepaid Calling Cards are valid for one hundred eighty (180) days from the date of first usage. Unused Prepaid Balances may be used by the Inmate User or Authorized User following release from the Confinement Facility only through the Company’s network by dialing a special toll free access number with automatically connects the call to the Company’s network. Unused Prepaid Balances are not refundable nor may Prepaid Calling Cards be replenished upon the depletion of the Prepaid Balance. Inmates may purchase additional cards, as permitted by their Confinement Facility.

Prepaid Calling Cards and Debit Accounts, Continued

Prepaid Debit Accounts

For a Prepaid Debit Account, the Inmate may set up the account through the Confinement Facility administrators with an initial payment typically through the Inmate’s commissary account, in those Confinement Facilities where this service is available. Upon the depletion of the Prepaid Balance, the Prepaid Debit Account may be replenished by depositing funds into the Account via the Confinement Facility administrator. Prepaid Debit Accounts are considered dormant if there is no activity for one hundred eighty (180) days following the last call made. Inactive accounts will be removed from the Company’s system. In conjunction with their release from the Confinement Facility, the Inmate may request a refund from the Confinement Facility administrator.

AdvanceConnect Accounts

End Users who prefer to pay in advance for Collect Calls that originate from Confinement Facilities, or else if the End User’s local exchange carrier does not have a billing and collection agreement with the Company or its intermediary, may set up an AdvanceConnect Account with the Company with a minimum initial fifty dollar ($50) payment. The Account is set up with the initial payment and may be replenished by the End User. Applicable state taxes and fees are calculated and deducted from the balance at the conclusion of the call.

When the balance in an AdvanceConnect Account reaches twenty dollars ($20) or below, the End User will receive an automated courtesy call from the Company notifying the End User with such an announcement. If the End User’s balance reaches zero prior to replenishment of the Account, the End User will be blocked from receiving further calls from any Confinement Facility served by the Company until the balance is replenished or an alternative billing arrangement is made.

The End User may request a refund of the available balance in the AdvanceConnect Account either by written request to the Company or by contacting the Company at its toll free telephone number once the End User verifies certain account information. Any such unused balances will expire in one hundred eighty (180) days following the last call made, unless the balance is either fully depleted or a refund has been requested. Refunds are subject to a processing fee of up to $4.95 and no refunds will be issued for accounts reflecting a balance of $4.95 or less; this policy applies only to accounts established on or after November 1, 2008. No refunds of unused balances will be issued after the expiration date.

AdvanceConnect Account service is available twenty-four (24) hours a day, seven (7) days a week to all terminating locations served. Access to such services by the Inmate User may be subject to time-of-day and usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest one (1) cent on a per call basis. Balances are not charged for incomplete calls.

Wireless Administration Fee – a monthly fee of up to $3.99 is applicable to any AdvanceConnect account with a wireless telephone number included as a number authorized to receive calls. This fee applies once per month, per account regardless of the number of wireless telephone numbers authorized. The fee amount will be deducted from the AdvanceConnect account balance on a monthly basis as long as a wireless number remains on the AdvanceConnect account. As of the initial effective date of this fee, existing AdvanceConnect accounts with existing authorized wireless numbers will be Grandfathered and the Wireless Administration Fee will not apply. If an existing AdvanceConnect account adds or changes a wireless number on the account, the Wireless Administration Fee will apply going forward.

Inmate Debit

Inmate Debit is a prepaid telephone account offering made available to Inmates by the Company when permitted by the Confinement Facility. Inmate Debit provides an alternative method for Inmates to prepay for and make calls. An Inmate Debit account associated with the Inmate’s Personal Identification Number (PIN) is automatically established by the Company. Inmates fund and replenish their Inmate Debit account through electing to transfer funds from either their facility’s inmate trust fund or commissary account to their Inmate Debit account. Inmate Debit accounts may also be funded by inmate friends and family members via the Company’s points-of-sale. Funds placed in this account become the property of the inmate.

Inmate Debit calls are processed by dialing a special access dialing sequence that connects directly to the Company’s network at the Confinement Facility. Inmates must enter a valid Authorization Code to access their Inmate Debit account. The Company’s system automatically informs the Inmate of the prepaid balance remaining on the Inmate Debit account prior to each call, provides prompts to place the call by entering the destination telephone number, and informs the Inmate of the rates for the call being attempted. Call charges are deducted from the prepaid account balance on a real-time basis as the call progresses. Applicable state taxes and fees are in addition to the rates and charges for calling service. During an Inmate Debit call, when the prepaid account balance is one minute prior to depletion, the Inmate will be interrupted with such an announcement.

Inmate Debit services are available twenty-four (24) hours a day, seven (7) days per week to all terminating locations serviced. Access to such telephone services by an Inmate may be subject to time-of-day and usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest one (1) cent on a per call basis. Prepaid balances are not charged for incomplete calls.

Refunds of unused Inmate Debit account balances are issued by the entity controlling the actual cash deposits, which is either the Company, the commissary, the Confinement Facility or its agent, depending on the specific arrangements, unless otherwise directed by state law. Depending on the entity issuing the refund, refund fees and/or minimum refund amounts may apply. The prepaid balance expires ninety (90) days from the date of the last call placed on the Inmate Debit account unless alternative arrangements are expressly requested by the Confinement Facility. No refunds of unused balances will be issued after the expiration date.

Sheet Numbering: Sheet numbers appear in the upper right corner of the sheet. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 11 and 12 would be Sheet 11.1.

Revision Numbers: Revision numbers also appear in the upper right corner of each sheet where applicable. These numbers are used to indicate the most current sheet version on file with the Pennsylvania Public Utility Commission (“Commission”). For example, 4th Revised Sheet 13 cancels 3rd Revised Sheet 13. Consult the check sheet for the sheets currently in effect.

Paragraph Numbering Sequence: There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

2.1.1.
2.1.1.A.
2.1.1.A.1.

2.1.1.A.1.(a).I.(i)
2.1.1.A.1.(a).I.(i).(1).

Check Sheets: When a tariff filing is made with the Commission, an updated Check Sheet is included. The Check Sheet lists the sheets contained in the tariff, with a cross reference to the current Revision Number. When new sheets are added, the Check Sheet is changed to reflect the addition. All revised sheets in a given filing are designated by an asterisk (*) on the Check Sheet. The tariff user should refer to the latest Check Sheet to find out if a particular sheet is the most current on file with the Commission.
EXPLANATION OF SYMBOLS – CODING OF TARIFF REVISIONS

C – Change in Regulation, but No Change in Rate or Charge

D – Change Resulting in a Decrease in Rates

I – Change Resulting in an Increase in Rate or Change

2. APPLICATION OF TARIFF

2.1 This tariff contains the regulations and rates applicable to intrastate telecommunications services provided by the Company between points within the Commonwealth of Pennsylvania. The Company’s services are furnished subject to the availability of facilities and subject to the terms and conditions of this tariff.

2.2 The services offered by the Company subject to this tariff consist of furnishing Collect Calls through store and forward technology incorporating an automated operator and the resale of transmission services of other carriers.

2.3 Because the services offered hereunder are provided to inmates of a Confinement Facility or similar institution, special stipulations may apply. These stipulations are designed to preserve the integrity and security of the facility, the safety of the public and to reduce fraud and harassment. When deemed appropriate by the facility administration, these include: providing outward only calls; providing 0+ Collect Calls only for local, IntraLATA toll and InterLATA toll calls, and blocking access to all other types or forms of calls, except those related to a Debit Account; blocking access to local Directory Assistance (411), long distance Directory Assistance (555-1212), 911 calls, toll free numbers including 1-800, 700, 900, 950, 10XXX and any other telephone numbers the facility administration directs, limiting hours during which telephone service is available to inmates, and/or limiting call duration to a time interval established by the facility administration.

2.4 Service furnished by the Company may be connected with services or facilities of other authorized Common Carriers and with private systems, subject to the technical limitations established by the Company. The services of the Company are not part of a joint undertaking with any other entity providing telecommunications channels, facilities or services, but do involve the resale of the Message Toll Services (MTS) and Wide Area Telecommunications Services (WATS) of underlying Common Carriers who may be subject to the jurisdiction of this Commission.

2.5 The rates and regulations contained in this tariff apply only to the services furnished by the Company and do not apply unless otherwise specified, to the lines, facilities, or services provided by a local exchange telephone company or other Common Carrier for use in accessing the services of the Company.

2.6 The Company’s obligation to furnish service hereunder is dependent upon its ability to secure and retain, without unreasonable expense, suitable facilities and contractual rights necessary for the provision of the service.

No agents or employees of any other entity shall be deemed to be the agents or employees of the Company.

3.2.6 The Company shall not be liable for any failure of performance due to causes beyond its control, including, without limitation, acts of God, fires, insurrections, riots or wars, strikes, lockouts, work stoppages or other labor difficulties, and any law, order, regulation or other action of any governing authority or agency thereof.

The Company will restore service as soon as it can be provided without undue risk.

3.4.4 The Company may refuse to provide service without prior notice when the called party refuses to accept the charges or has subscribed to billed number screening, prohibiting acceptance of such call.
4. RATE DETERMINATION

4.1 Determination of Mileage

Charges of each call are computed on an airline mileage basis as described below,

(A) Calling distance is measured from the rate center of the Confinement Facility to the rate center of the destination of the call, regardless of Company routing.

(B) The rate centers of a call are determined by the NPA’s, or area codes, and exchanges of the origination and destination points, as listed in AT&T FCC Tariff No. 10.

(C) The distance between the rate center’s switch used to serve the Confinement Facility and that of the destination point is calculated by using the “V” and “H” coordinates in the following manner:

Step 1 - Obtain the “V” and “H” coordinates for the rate centers of Confinement Facility’s switch and the destination point.

Step 2 - Obtain the difference between the “V” coordinates of each of the rate centers. Obtain the difference between the “H” coordinates.

Step 3 - Square the difference obtained in Step 2.

Step 4 - Add the squares of the “V” difference and “H” difference obtained in Step 3.

Step 5 - Divide the sum of the squares obtained in Step 4 by ten (10). If any, fraction results, round to the next higher whole number.

Step 6 - Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the rate centers.
4. RATE DETERMINATION (Continued)

4.1 Determination of Mileage (Continued)

The formula for calculating the distance between rate centers is:

\[
\sqrt{\frac{(V_1 V_2)^2 + (H_1 H_2)^2}{10}}
\]

where \((V_1, H_1)\) are the coordinates for the originating rate center and \((V_2, H_2)\) are the coordinates for the terminating rate center.

4.2 Call Timing

Timing of each collect call begins when the Called Station accepts responsibility for the charges and ends when either party hangs up, as determined by standard industry methods in use for ascertaining answer and disconnect, including hardware answer supervision in which the industry methods in use for ascertaining answer and disconnect, including hardware answer supervision in which the LEC sends a signal to the switch or the software utilizing audio tone detection, or as determined by industry standards methods generally in use for ascertaining answer and disconnect as determined by the underlying Common Carrier for the Company’s services, where answer supervision is available. The Company will not knowingly bill for uncompleted calls.
5. PAYMENTS AND CHARGES

5.1 Billing Arrangements

5.1.1 Charges for services hereunder may be:

5.1.1.A billed directly by the Company,

5.1.1.B included on the End User’s regular home or business telephone bill, pursuant to billing and collection agreements established by the Company or its intermediary with the applicable telephone company.

5.1.2 When billing functions on behalf of the Company or its intermediary are performed by local exchange telephone companies or others, the payment of charge conditions and regulations of such companies and any regulations imposed upon these companies by regulatory bodies having jurisdiction apply.

5.1.3 The Company’s bills are due upon receipt. Amounts not paid within 30 days from the due date of the invoice will be considered past due. End Users may be assessed a late fee on past due amounts at the maximum lawful rate under applicable state law. If an End User presents an undue risk of non-payment at any time, the Company may require that the End User pay its bills within a specified number of days and make payments in cash or the equivalent of cash.

5.1.4 If the End User does not pay his bill or exceeds the Payment Verification Point on his account, as set forth in Section 5.2, the Company reserves the right to suspend the End User’s ability to receive collect calls from a Confinement Facility.

5.1.5 End Users with questions about invoices may contact the Company directly at its customer service center in Selma, Alabama at 800/844-6591. If written notice of a dispute as to charges is not received by the Company within thirty (30) days of the date a bill is issued, such charges shall be deemed to be correct and binding on the End User.

5.1.6 In the event the Company incurs fees or expenses in collecting or attempting to collect any charges owed the Company, the End User will be liable to the Company for the payment of all such fees and expenses reasonably incurred.
5. PAYMENTS AND CHARGES (Continued)

5.2 Payment Verification Point

A Payment Verification Point (PVP) is set for all accounts as a means for the Company to minimize the risk of loss, with an initial amount established for new End Users. This system enables the Company to readily identify situations where high call volumes may indicate fraudulent use of a telephone number unbeknownst to the legitimate End User or where the End User has no intent of paying outstanding charges.

For these reasons, new End Users are assigned an initial PVP until a payment history is developed or contact is made with the End User. Upon reaching 75% of the PVP amount, End Users are automatically notified and requested to contact the Company’s Customer Care Center because the line will be automatically blocked once the PVP threshold is exceeded. The End User is notified again when the block is put in place.

Upon contacting the Company, End Users may discuss the limit on the account and solutions to release a block if fraud or intentional End User abuse is not suspected. While End Users are given the opportunity to have blocks removed and their balance restored to zero to allow more calls, the PVP threshold will remain unchanged. For example, End Users may establish a prepay account or pay outstanding charges to remove a call block. The PVP amount is subject to change periodically, depending on an End User’s calling patterns, payment history and duration of the End User relationship.

5.3 Contested Charges

For consideration of any disputed charge, the End User must submit in writing to the Company, within thirty (30) days of the date the bill is issued, the call details and bases for any requested adjustment. The Company will promptly investigate and advise the End User as to its findings and disposition.
5. PAYMENTS AND CHARGES (Continued)

5.4 Returned Check Charge

A charge of $25, or applicable maximum state returned check charge, may be applied if a
check or draft presented for payment of service is not accepted by the institution on
which it is written.

5.5 Deposits

No advance deposits are required.

5.6 Taxes

All federal, state, and local taxes for operator assisted calls are billed as separate line
items and are not included in the quoted rates, with the exception of Debit Account calls.

5.7 Credit Card/Check-by-Phone Payment Processing Fee

A payment processing fee in the amount of $6.95 is applicable to credit card payments
and check-by-phone payments submitted to the Company. This fee does not apply to
payments mailed to the company or submitted via a customer’s online banking service.
6. RATES AND CHARGES

This section sets forth the rates and charges applicable to the Company’s intrastate telecommunications service offering. Charges consist of a variable measured charge for usage, depending on the distance and time of day of the call, plus a non-measured surcharge.

Rates charged will not exceed the Highest Interexchange Transporter Day Rates (HITDR) or surcharge (HITC) of other carriers operating in the states.

6.1 [Reserved]

6.2 Prepaid Calling Cards and Debit Accounts

Where offered by the Confinement Facility, Inmates may either purchase a Prepaid Calling Card or set up a Prepaid Debit Account for calls made by the Inmate User or Authorized User. Prepaid Calling Cards and Debit Accounts provide an alternative method to make calls and are designed for those Inmates who prefer to prepay for their calls. Calls are made by dialing a special access dialing sequence that connects directly to the Company’s network at the Confinement Facility. A valid Authorization Code must be entered to access the account.

The Company’s system automatically informs the Inmate User or Authorized User of the Prepaid Balance remaining on the Prepaid Calling Card or in the Prepaid Debit Account, and provides prompts to place the call by entering the destination telephone number with area code. Network usage is deducted from the Prepaid Balance on a real time basis as the call progresses. Applicable state taxes and fees are included in the rates and charges for the calls made. On Prepaid Calling Card and Prepaid Debit Account calls, when the Prepaid Balance is one minute prior to depletion, the Inmate User or Authorized User will be interrupted with such an announcement.

Prepaid Calling Card and Debit Account services are available twenty-four (24) hours a day, seven (7) days per week to all terminating locations serviced. Access to such telephone services by an Inmate User may be subject to time-of-day an usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest one (1) cent on a per call basis. Prepaid Balances are not charged for incomplete calls.
6. RATES AND CHARGES (CONTINUED)

6.2 Prepaid Calling Cards and Debit Accounts (Continued)

6.2.1 Prepaid Calling Cards

The Confinement Facilities that offer the option of Prepaid Calling Cards may purchase Prepaid Calling Cards directly from the Company. Inmates then purchase the Cards from authorized personnel at the Confinement Facilities. The Company does not engage in direct monetary transactions with the Inmate. The Inmate may purchase a Prepaid Calling Card in denominations determined by the Confinement Facility. Prepaid Calling Cards are offered only to Inmates at Confinement Facilities and not to the general public. Prepaid Calling Cards are valid for one hundred eighty (180) days from the date of first usage. Unused Prepaid Balances may be used by the Inmate User or Authorized User following release from the Confinement Facility only through the Company’s network by dialing a special toll free access number with automatically connects the call to the Company’s network. Unused Prepaid Balances are not refundable nor may Prepaid Calling Cards be replenished upon the depletion of the Prepaid Balance. Inmates may purchase additional cards, as permitted by their Confinement Facility.

6.2.2 Prepaid Debit Accounts

For a Prepaid Debit Account, the Inmate may set up the account through the Confinement Facility administrators with an initial payment typically through the Inmate’s commissary account, in those Confinement Facilities where this service is available. Upon the depletion of the Prepaid Balance, the Prepaid Debit Account may be replenished by depositing funds into the Account via the Confinement Facility administrator. Prepaid Debit Accounts are considered dormant if there is no activity for one hundred eighty (180) days following the last call made. Inactive accounts will be removed from the Company’s system. In conjunction with their release from the Confinement Facility, the Inmate may request a refund from the Confinement Facility administrator.
6. RATES AND CHARGES (CONTINUED)

6.2 Prepaid Calling Cards and Debit Accounts (Continued)

6.2.3 Inmate Debit Accounts

Inmate Debit is a prepaid telephone account offering made available to Inmates by the Company when permitted by the Confinement Facility. Inmate Debit provides an alternative method for Inmates to prepay for and make calls. An Inmate Debit account associated with the Inmate’s Personal Identification Number (PIN) is automatically established by the Company. Inmates fund and replenish their Inmate Debit account through electing to transfer funds from either their facility’s inmate trust fund or commissary account to their Inmate Debit account. Inmate Debit accounts may also be funded by inmate friends and family members via the Company’s points-of-sale. Funds placed in this account become the property of the inmate.

Inmate Debit calls are processed by dialing a special access dialing sequence that connects directly to the Company’s network at the Confinement Facility. Inmates must enter a valid Authorization Code to access their Inmate Debit account. The Company’s system automatically informs the Inmate of the prepaid balance remaining on the Inmate Debit account prior to each call, provides prompts to place the call by entering the destination telephone number, and informs the Inmate of the rates for the call being attempted. Call charges are deducted from the prepaid account balance on a real-time basis as the call progresses. Applicable state taxes and fees are in addition to the rates and charges for calling service. During an Inmate Debit call, when the prepaid account balance is one minute prior to depletion, the Inmate will be interrupted with such an announcement.

Inmate Debit services are available twenty-four (24) hours a day, seven (7) days per week to all terminating locations serviced. Access to such telephone services by an Inmate may be subject to time-of-day and usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest one (1) cent on a per call basis. Prepaid balances are not charged for incomplete calls.

Refunds of unused Inmate Debit account balances are issued by the entity controlling the actual cash deposits, which is either the Company, the commissary, the Confinement Facility or its agent, depending on the specific arrangements, unless otherwise directed by state law. Depending on the entity issuing the refund, refund fees and/or minimum refund amounts may apply. The prepaid balance expires ninety (90) days from the date of the last call placed on the Inmate Debit account unless alternative arrangements are expressly requested by the Confinement Facility. No refunds of unused balances will be issued after the expiration date.
6. RATES AND CHARGES (CONTINUED)

6.3 AdvanceConnect Accounts

End Users who prefer to pay in advance for Collect Calls that originate from Confinement Facilities, or else if the End User’s local exchange carrier does not have a billing and collection agreement with the Company or its intermediary, may set up an AdvanceConnect Account with the Company with a minimum initial fifty dollar ($50) payment. The Account is set up with the initial payment and may be replenished by the End User. Applicable state taxes and fees are calculated and deducted from the balance at the conclusion of the call.

When the balance in an AdvanceConnect Account reaches twenty dollars ($20) or below, the End User will receive an automated courtesy call from the Company notifying the End User with such an announcement. If the End User’s balance reaches zero prior to replenishment of the Account, the End User will be blocked from receiving further calls from any Confinement Facility served by the Company until the balance is replenished or an alternative billing arrangement is made.

The End User may request a refund of the available balance in the AdvanceConnect Account either by written request to the Company or by contacting the Company at its toll free telephone number once the End User verifies certain account information. Any such unused balances will expire in one hundred eighty (180) days following the last call made, unless the balance is either fully depleted or a refund has been requested. Refunds are subject to a processing fee of up to $4.95 and no refunds will be issued for accounts reflecting a balance of $4.95 or less; this policy applies only to accounts established on or after November 1, 2008. No refunds of unused balances will be issued after the expiration date.

AdvanceConnect Account service is available twenty-four (24) hours a day, seven (7) days a week to all terminating locations served. Access to such services by the Inmate User may be subject to time-of-day and usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest one (1) cent on a per call basis. Balances are not charged for incomplete calls.

Service shall be available to all similarly situated Confinement Facilities for a fixed period of time following the initial offering to the first contract Confinement Facility as specified in each individual contract.

6.6 **Bill Statement Fee**

An undiscountable bill statement fee of $3.49 may be applied to an End User’s local exchange carrier bill in each month in which Collect Calls from Confinement Facilities are billed, regardless of the number of calls accepted. A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.

B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Consult the Check Sheet for the sheet currently in effect.

C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

2.1.1.A.1.(a).I.(i).(1).

D. Check Sheets - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some sheets.)

2.4 Liabilities of Company, (Cont'd.)

2.4.2 The Company shall not be liable for claim or loss, expense or damage (including indirect, special or consequential damage), for any interruption, delay, error, omission, or defect in any service, facility or transmission provided under this tariff, if caused by any person or entity other than the Company, by any malfunction of any service or facility provided by any other carrier, by an act of God, fire, war, civil disturbance, or act of government, or by any other cause beyond the Company's direct control.

2.4.3 The Company shall not be liable for, and shall be fully indemnified and held harmless by Correctional Institution, Inmates and Called Parties against any claim or loss, expense, or damage (including indirect, special or consequential damage) for defamation, libel, slander, invasion, infringement of copy-right or patent, unauthorized use of any trademark, tradename or service mark, unfair competition, interference with or misappropriation or violation of any contract, proprietary or creative right, or any other injury to any person, property or entity arising out of the material, data, information, or other content revealed to, transmitted, or used by the Company under this tariff; or for any act or omission of the Correctional Institution or Inmate; or for any personal injury or death of any person caused directly or indirectly by the installation, maintenance, location, condition, operation, failure, presence, use or removal of equipment or wiring provided by the Company, if not directly caused by negligence of the Company.

2.4.4 The Company shall not be liable for any defacement of or damages to the premises of a Correctional Institution resulting from the furnishing of service which is not the direct result of the Company's negligence.
SECTION 2 - RULES AND REGULATIONS, (CONT'D.)

2.5 Taxes and Fees

All state and local taxes (i.e., gross receipts tax, sales tax, municipal utilities tax) are listed as separate line items and are not included in the quoted rates.

2.5.1 State and local taxes (i.e., gross receipts tax, sales tax, municipal utilities tax) are listed as separate line items on the Customer's bill and are not included in the quoted rates and charges set forth in this tariff.

2.5.2 To the extent that a municipality, other political subdivision or local agency of government, or Commission imposes upon and collects from the Company a gross receipts tax, occupation tax, license tax, permit fee, franchise fee, or regulatory fee, such taxes and fees shall, insofar as practicable and allowed by law, be billed pro rata to Customers receiving service from the Company within the territorial limits of such municipality, other political subdivision or local agency of government.

2.5.3 The Company may adjust its rates and charges or impose additional rates and charges on its Customers in order to recover amounts it is required by governmental or quasi-governmental authorities to collect from or pay to others in support of statutory or regulatory programs. Such adjustments shall be listed in this tariff.
SECTION 2 - RULES AND REGULATIONS, (CONT'D.)

2.5   Taxes and Fees, (Cont'd.)

2.5.1 Public Telephone Surcharge

In order to recover the Company’s expenses to comply with the FCC’s pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services. This surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company’s service, applies for the use of the instrument used to access the Company's service and is unrelated to the service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any re-originated call (i.e., using the A#@ symbol).

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.

Rate per Call, per minute $0.26
SECTION 2 - RULES AND REGULATIONS, (CONT'D.)

2.6 Installation and Termination

Service is installed upon mutual agreement between the Correctional Institution and the Company. Unless such agreement is filed pursuant to Pennsylvania Public Utility Commission rules, the service agreement does not alter rates specified in this tariff.

2.7 Billing and Payment for Service

2.7.1 Payment for Service

The Customer is responsible for payment of all charges for services and equipment furnished to the Customer or to an end user of the Customer by T-NETIX Telecommunications Services. All charges due by the Customer are payable to the Company or to any agency duly authorized to receive such payments (such as a local exchange company).

2.7.2 Disputed Charges

Charges billed directly by the Company are due upon receipt. Amounts not paid within 20 days of the invoice will be considered past due. For charges billed directly by the Company, notice from the Customer of a dispute as to charges should be received orally or in writing by the Company as soon as possible.

The Company will promptly investigate and advise the Customer as to its findings concerning disputed charges. Adjustments to Customer's bills will be made to the extent that circumstances exist which reasonably indicate that such changes are appropriate.
SECTION 2 - RULES AND REGULATIONS, (CONT'D.)

2.7 Billing and Payment For Service, (Cont'd.)

2.7.3 Validation of Credit

The Company reserves the right to validate the creditworthiness of Customers and billed parties through available verification procedures. Where a requested billing method cannot be validated or maximum credit amount established, the Company may refuse to provide service.

Services provided by the Company are available to inmates of confinement facilities in accordance with facility-authorized programs. The Company may request that the confinement facility adopt, as part of its program, terms that enable the Company to collect the charges for all inmate calls, including without limitation, the blocking of calls by the Company to certain telephone numbers when the amount charged to such a telephone number exceeds a predetermined amount or becomes past due.

2.7.4 Deposits

The Company does not normally require deposits. However the company reserves the right to collect a deposit from parties who are billed for collect calls from inmates.

2.7.5 Advance Payments

The Company does not normally require advance payments for service. However, T-NETIX reserves the right to collect an amount not to exceed one (1) month’s estimated charges as an advance payment for service. This will be applied against the next month’s charges and a new advance payment may be collected for the next month, if necessary.

2.7.6 Return Check Charge

A return check charge of $25.00 will be assessed for checks returned for insufficient funds.

2.7.7 Credit Card/Check-by-Phone Payment Processing Fee

A payment processing fee in the amount of $6.95 is applicable to credit card payments and check-by-phone payments submitted to the Company. This fee does not apply to payments mailed to the company or submitted via a customer’s online banking service.
SECTION 2 - RULES AND REGULATIONS, (CONT'D.)

2.8 Interconnection

Service furnished by T-NETIX may be connected with the services or facilities of other carriers. Such service or facilities, if used, are provided under the terms, rates and conditions of the other carrier.

2.9 Refusal or Discontinuance by Company

T-NETIX may refuse or discontinue service under the following conditions. Unless otherwise stated, the Correctional Institution, Inmate, or Called Party will be given notice and allowed a reasonable time to comply with any rule or remedy any deficiency.

(a) For non-compliance with and/or violation of any State or municipal law, ordinance or regulation pertaining to telephone service.

(b) For the use of telephone service for any other property or purpose other than that described in the application.

SECTION 2 - RULES AND REGULATIONS, (CONT'D.)

2.9 Refusal or Discontinuance by Company, (Cont'd.)

(f) Without notice in the event of tampering with the equipment furnished and owned by the Company.

(g) Without notice in the event of unauthorized or fraudulent use of service.

(h) For Correctional Institution's breach of the contract for service between the Company and the Correctional Institution.

(i) When necessary for the Company to comply with any order or request of any governmental authority having jurisdiction.

2.10 Inspection, Testing and Adjustment

Upon reasonable notice, the facilities provided by the Carrier shall be made available to the Carrier for tests and adjustments as may be deemed necessary by the Carrier for maintenance. No interruption allowance will be granted for the time during which such tests and adjustments are made.

2.11 Interruption of Service

Credit allowances for interruptions of service which are not due to the Carrier's testing or adjusting, to the negligence of the Correctional Institution or Inmate, or to the failure of channels, equipment or communications systems provided by the Institution, are subject to the general liability provisions set forth in Section 2.4 herein. It shall be the obligation of the Inmate, Called Party or Correctional Institution to notify Carrier immediately of any interruption in service for which a credit allowance is desired.
SECTION 3 - DESCRIPTION OF SERVICE

3.1 General

Service is offered to Inmates of Correctional Institutions in Pennsylvania. T-NETIX's service provides automated operator assisted calling for collect calls. Responsibility for payment of charges for calls must be accepted by the Called Party. At the discretion of the institution's administration, service may be limited or restricted for reasons of fraud prevention, security or control.

3.2 Timing of Calls

3.2.1 Long distance usage charges are based on actual usage of T-NETIX's network. Timing of a call begins when the Called Party accepts the charges for the call.

3.2.2 Chargeable time for a call ends upon disconnection by either party.

3.2.3 The minimum call duration and initial period for billing purposes is one minute.

3.2.4 Unless otherwise specified in this tariff, for billing purposes usage is measured and rounded to the next higher full minute.

3.2.5 No charges apply for incomplete calls or for calls to called parties who do not accept charges for the call (calls are terminated upon the Called Party's refusal to accept responsibility for charges.)
SECTION 3 - DESCRIPTION OF SERVICE, (CONT'D.)

3.3 Calculation of Distance

Usage charges for all mileage sensitive products are based on the airline distance between the serving wire center locations associated with the originating and terminating points of the call.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the serving wire centers as defined by BellCore (Bell Communications Research), in the following manner:

Step 1: Obtain the "V" and "H" coordinates for the serving wire center of the Customer's switch and the destination point.

Step 2: Obtain the difference between the "V" coordinates of each of the Rate Centers. Obtain the Difference between the "H" coordinates.

Step 3: Square the differences obtained in Step 2.

Step 4: Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5: Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.

Step 6: Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating serving wire centers of the call.

Formula:

$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$
SECTION 3 - DESCRIPTION OF SERVICE, (CONT'D.)

3.4 Institutional Collect-Only Calling Service

T-Netix's Institutional Collect-Only Calling Service is offered to customers for calling within the Commonwealth of Pennsylvania. The service is designed for the placement of calls by inmates of prisons or confinement facilities. Calls are routed via automated premises equipment to valid NPA-NXX in the Commonwealth of Pennsylvania by the switching facilities of T-Netix's underlying carrier(s). If a call is not accepted within five (5) seconds of the automated voice recording prompt, the automated recording is replayed a second time. If an acceptance digit is not received five (5) seconds after the second recording is completed, the call is terminated by T-NETIX's system.

Calls are measured as described in Sections 3.3 of this tariff and rated based on time of day, call duration and mileage.

Per-minute usage sensitive charges, as well as a per-call automated operator surcharge apply.

Service may be limited or restricted at the request of the Institution administration. Restrictions include, but are not limited to: call duration limits, call-to number blocking, emergency call blocking, blocked access to a live operator and to alternate carriers, collect or person to person collect only, service availability hours, or other restrictions deemed necessary for the welfare of the institution and safety of the public.

3.4.1 PIN-LOCK® Service

PIN-LOCK®: applies to automated calls placed by inmates of correctional facilities when such calls are provided through T-NETIX’ own processing equipment. PIN-LOCK® provides validation of inmate personal identification numbers (PINs) through voice verification technology for purposes of improved security and reduced potential of fraud and Customer harassment by inmates. Where installation of PIN-LOCK® is requested by correctional facilities, this charge applies in addition to all applicable message charges and operator assistance service charges specified in this tariff.

3.4.2 Bill Statement Fee

An undiscountable bill statement fee may be applied to an End User’s local exchange carrier bill in each month in which Collect Calls from Confinement Facilities are billed, regardless of the number of calls accepted. The bill statement fee is a monthly charge to recover some of the Company’s expenses associated with calls from Confinement Facilities served by the Company and that are billed through local exchange carriers. No fee will be assessed in any month if no Collect Calls are accepted. This fee will not be assessed on End Users that prepay for their services or those that are directly billed by the Company.
SECTION 3 - DESCRIPTION OF SERVICE, (CONT'D.)

3.5 Prepaid Institutional Calling Services

3.5.1 Prepaid Calling Cards and Debit Accounts

Where offered by the Confinement Facility, Inmates may either purchase a Prepaid Calling Card or set up a Prepaid Debit Account for calls made by the Inmate User or Authorized User. Prepaid Calling Cards and Debit Accounts provide an alternative method to make calls and are designed for those Inmates who prefer to prepay for their calls. Calls are made by dialing a special access dialing sequence that connects directly to the Company’s network at the Confinement Facility. A valid Authorization Code must be entered to access the account.

The Company’s system automatically informs the Inmate User or Authorized User of the Prepaid Balance remaining on the Prepaid Calling Card or in the Prepaid Debit Account and provides prompts to place the call by entering the destination telephone number with area code. Network usage is deducted from the Prepaid Balance on a real time basis as the call progresses. Applicable state taxes and fees are in addition to the rates and charges for calling service. On Prepaid Calling Card and Prepaid Debit Account calls, when the Prepaid Balance is one minute prior to depletion, the Inmate User or Authorized User will be interrupted with such an announcement.

Prepaid Calling Card and Debit Account services are available twenty-four (24) hours a day, seven (7) days per week to all terminating locations serviced. Access to such telephone services by an Inmate User may be subject to time-of-day and usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest one (1) cent on a per call basis. Prepaid Balances are not charged for incomplete calls.
SECTION 3 - DESCRIPTION OF SERVICE, (CONT'D.)

3.5 Prepaid Institutional Calling Services, (Cont'd.)

3.5.1 Prepaid Calling Cards and Debit Accounts, (Cont'd.)

(A) Prepaid Calling Cards

The Confinement Facilities that offer the option of Prepaid Calling Cards may purchase Prepaid Calling Cards directly from the Company. Inmates then purchase the Cards from authorized personnel at the Confinement Facilities. The Company does not engage in direct monetary transactions with the Inmate. The Inmate may purchase a Prepaid Calling Card in denominations determined by the Confinement Facility. Prepaid Calling Cards are offered only to Inmates at Confinement Facilities and not to the general public. Prepaid Calling Cards are valid for one hundred eighty (180) days from the date of first usage. Unused Prepaid Balances may be used by the Inmate User or Authorized User following release from the Confinement Facility only through the Company’s network by dialing a special toll free access number with automatically connects the call to the Company’s network. Unused Prepaid Balances are not refundable nor may Prepaid Calling Cards be replenished upon the depletion of the Prepaid Balance. Inmates may purchase additional cards, as permitted by their Confinement Facility.

(B) Prepaid Debit Accounts

For a Prepaid Debit Account, the Inmate may set up the account through the Confinement Facility administrators with an initial payment typically through the Inmate’s commissary account in those Confinement Facilities where this service is available. Upon the depletion of the Prepaid Balance, the Prepaid Debit Account may be replenished by depositing funds into the Account via the Confinement Facility administrator. All deposits to the Account are paid to and handled by the Facility. The Company receives payment from the Facility; it does not engage in direct monetary transactions with the inmate. In conjunction with release from the Confinement Facility, the Inmate may request a refund from the Confinement Facility administrator.
SECTION 3 - DESCRIPTION OF SERVICE, (CONTINUED)

3.5 Prepaid Institutional Calling Services, (Continued)

3.5.1 Prepaid Calling Cards and Debit Accounts, (Continued)

(C) Inmate Debit Accounts

Inmate Debit is a prepaid telephone account offering made available to Inmates by the Company when permitted by the Confinement Facility. Inmate Debit provides an alternative method for Inmates to prepay for and make calls. An Inmate Debit account associated with the Inmate’s Personal Identification Number (PIN) is automatically established by the Company. Inmates fund and replenish their Inmate Debit account through electing to transfer funds from either their facility’s inmate trust fund or commissary account to their Inmate Debit account. Inmate Debit accounts may also be funded by inmate friends and family members via the Company’s points-of-sale. Funds placed in this account become the property of the inmate.

Inmate Debit calls are processed by dialing a special access dialing sequence that connects directly to the Company’s network at the Confinement Facility. Inmates must enter a valid Authorization Code to access their Inmate Debit account. The Company’s system automatically informs the Inmate of the prepaid balance remaining on the Inmate Debit account prior to each call, provides prompts to place the call by entering the destination telephone number, and informs the Inmate of the rates for the call being attempted. Call charges are deducted from the prepaid account balance on a real-time basis as the call progresses. Applicable state taxes and fees are in addition to the rates and charges for calling service. During an Inmate Debit call, when the prepaid account balance is one minute prior to depletion, the Inmate will be interrupted with such an announcement.

Inmate Debit services are available twenty-four (24) hours a day, seven (7) days per week to all terminating locations serviced. Access to such telephone services by an Inmate may be subject to time-of-day and usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest one (1) cent on a per call basis. Prepaid balances are not charged for incomplete calls.

Refunds of unused Inmate Debit account balances are issued by the entity controlling the actual cash deposits, which is either the Company, the commissary, the Confinement Facility or its agent, depending on the specific arrangements, unless otherwise directed by state law. Depending on the entity issuing the refund, refund fees and/or minimum refund amounts may apply. The prepaid balance expires ninety (90) days from the date of the last call placed on the Inmate Debit account unless alternative arrangements are expressly requested by the Confinement Facility. No refunds of unused balances will be issued after the expiration date.
SECTION 3 - DESCRIPTION OF SERVICE, (CONT'D.)

3.5 Prepaid Institutional Calling Services, (Cont'd.)

3.5.2 AdvanceConnect Accounts

End Users who prefer to pay in advance for Collect Calls that originate from Confinement Facilities, or if the End User’s local exchange carrier does not have a billing and collection agreement with the Company or its intermediary, may set up an AdvanceConnect Account with the Company with a minimum initial fifty dollar ($50) payment. The Account is set up with the initial payment and may be replenished by the End User. Applicable state taxes and fees are calculated and deducted from the balance at the conclusion of the call.

When the balance in an AdvanceConnect Account reaches twenty dollars ($20) or below, the End User will receive an automated courtesy call from the Company notifying the End User with such an announcement. If the End User’s balance reaches zero prior to replenishment of the Account, the End User will be blocked from receiving further calls from any Confinement Facility served by the Company until the balance is replenished or an alternative billing arrangement is made.

The End User may request a refund of the available balance in the AdvanceConnect Account either by written request to the Company or by contacting the Company at its toll free telephone number once the End User verifies certain account information. Any such unused balances will expire in one hundred eighty (180) days following the last call made, unless the balance is either fully depleted or a refund has been requested. Refunds are subject to a processing fee of up to $4.95 and no refunds will be issued for accounts reflecting a balance of $4.95 or less; this policy applies only to accounts established on or after November 1, 2008. No refunds of unused balances will be issued after the expiration date.

AdvanceConnect Account service is available twenty-four (24) hours a day, seven (7) days a week to all terminating locations served. Access to such services by the Inmate User may be subject to time-of-day and usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest one (1) cent on a per call basis. Balances are not charged for incomplete calls.

TARIFF FORMAT

A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.

B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Consult the Check Sheet for the sheet currently in effect.

C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

2.
2.1.
2.1.1.
2.1.1.A.
2.1.1.A.1.
2.1.1.A.1.(a).
2.1.1.A.1.(a).I.

D. Check Sheets - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some sheets.)

An automated system prompts the caller and the called party through user-friendly instructions. The called party must accept responsibility for payment of the charges by dialing the designated digit for acceptance. If a call is not accepted within five (5) seconds of the automated voice recording prompt, the automated recording is replayed a second time. SECTION 3 - DESCRIPTION OF SERVICE, CONTINUED

3.4 Prepaid Institutional Calling Services

3.4.1 Prepaid Calling Cards and Debit Accounts

Where offered by the Confinement Facility, Inmates may either purchase a Prepaid Calling Card or set up a Prepaid Debit Account for calls made by the Inmate User or Authorized User. Prepaid Calling Cards and Debit Accounts provide an alternative method to make calls and are designed for those Inmates who prefer to prepay for their calls. Calls are made by dialing a special access dialing sequence that connects directly to the Company’s network at the Confinement Facility. A valid Authorization Code must be entered to access the account.

The Company’s system automatically informs the Inmate User or Authorized User of the Prepaid Balance remaining on the Prepaid Calling Card or in the Prepaid Debit Account and provides prompts to place the call by entering the destination telephone number with area code. Network usage is deducted from the Prepaid Balance on a real time basis as the call progresses. Applicable state taxes and fees are in addition to the rates and charges for calling service. On Prepaid Calling Card and Prepaid Debit Account calls, when the Prepaid Balance is one minute prior to depletion, the Inmate User or Authorized User will be interrupted with such an announcement.

Prepaid Calling Card and Debit Account services are available twenty-four (24) hours a day, seven (7) days per week to all terminating locations serviced. Access to such telephone services by an Inmate User may be subject to time-of-day and usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest one (1) cent on a per call basis. Prepaid Balances are not charged for incomplete calls.
SECTION 3 - DESCRIPTION OF SERVICE, CONTINUED

3.4 Prepaid Institutional Calling Services, (Continued)

3.4.1 Prepaid Calling Cards and Debit Accounts, (Continued)

(A) Prepaid Calling Cards

The Confinement Facilities that offer the option of Prepaid Calling Cards may purchase Prepaid Calling Cards directly from the Company. Inmates then purchase the Cards from authorized personnel at the Confinement Facilities. The Company does not engage in direct monetary transactions with the Inmate. The Inmate may purchase a Prepaid Calling Card in denominations determined by the Confinement Facility. Prepaid Calling Cards are offered only to Inmates at Confinement Facilities and not to the general public. Prepaid Calling Cards are valid for one hundred eighty (180) days from the date of first usage. Unused Prepaid Balances may be used by the Inmate User or Authorized User following release from the Confinement Facility only through the Company’s network by dialing a special toll free access number with automatically connects the call to the Company’s network. Unused Prepaid Balances are not refundable nor may Prepaid Calling Cards be replenished upon the depletion of the Prepaid Balance. Inmates may purchase additional cards, as permitted by their Confinement Facility.

(B) Prepaid Debit Accounts

For a Prepaid Debit Account, the Inmate may set up the account through the Confinement Facility administrators with an initial payment typically through the Inmate’s commissary account in those Confinement Facilities where this service is available. Upon the depletion of the Prepaid Balance, the Prepaid Debit Account may be replenished by depositing funds into the Account via the Confinement Facility administrator. Prepaid Debit Accounts are considered dormant if there is no activity for one hundred eighty (180) days following the last call made. Inactive accounts will be removed from the Company’s system. In conjunction with release from the Confinement Facility, the Inmate may request a refund from the Confinement Facility administrator.
SECTION 3 - DESCRIPTION OF SERVICE, CONTINUED

3.4 Prepaid Institutional Calling Services, (Continued)

3.4.2 AdvanceConnect Accounts

End Users who prefer to pay in advance for Collect Calls that originate from Confinement Facilities, or if the End User’s local exchange carrier does not have a billing and collection agreement with the Company or its intermediary, may set up an AdvanceConnect Account with the Company with a minimum initial fifty dollar ($50) payment. The Account is set up with the initial payment and may be replenished by the End User. Applicable state taxes and fees are calculated and deducted from the balance at the conclusion of the call.

When the balance in an AdvanceConnect Account reaches twenty dollars ($20) or below, the End User will receive an automated courtesy call from the Company notifying the End User with such an announcement. If the End User’s balance reaches zero prior to replenishment of the Account, the End User will be blocked from receiving further calls from any Confinement Facility served by the Company until the balance is replenished or an alternative billing arrangement is made.

The End User may request a refund of the available balance in the AdvanceConnect Account either by written request to the Company or by contacting the Company at its toll free telephone number once the End User verifies certain account information. Any such unused balances will expire in one hundred eighty (180) days following the last call made, unless the balance is either fully depleted or a refund has been requested. Refunds are subject to a processing fee of up to $4.95 and no refunds will be issued for accounts reflecting a balance of $4.95 or less; this policy applies only to accounts established on or after May 11, 2010. No refunds of unused balances will be issued after the expiration date.

AdvanceConnect Account service is available twenty-four (24) hours a day, seven (7) days a week to all terminating locations served. Access to such services by the Inmate User may be subject to time-of-day and usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest one (1) cent on a per call basis. Balances are not charged for incomplete calls.

**Wireless Administration Fee** – a monthly fee of up to $2.99 is applicable to any AdvanceConnect account with a wireless telephone number included as a number authorized to receive calls. This fee applies once per month, per account regardless of the number of wireless telephone numbers authorized. The fee amount will be deducted from the AdvanceConnect account balance on a monthly basis as long as a wireless number remains on the AdvanceConnect account. As of the initial effective date of this fee, existing AdvanceConnect accounts with existing authorized wireless numbers will be Grandfathered and the Wireless Administration Fee will not apply. If an existing AdvanceConnect account adds or changes a wireless number on the account, the Wireless Administration Fee will

3.4.3 Inmate Debit

Inmate Debit is a prepaid telephone account offering made available to Inmates by the Company when permitted by the Confinement Facility. Inmate Debit provides an alternative method for Inmates to prepay for and make calls. An Inmate Debit account associated with the Inmate’s Personal Identification Number (PIN) is automatically established by the Company. Inmates fund and replenish their Inmate Debit account through electing to transfer funds from either their facility’s inmate trust fund or commissary account to their Inmate Debit account. Inmate Debit accounts may also be funded by inmate friends and family members via the Company’s points-of-sale. Funds placed in this account become the property of the inmate.

Inmate Debit calls are processed by dialing a special access dialing sequence that connects directly to the Company’s network at the Confinement Facility. Inmates must enter a valid Authorization Code to access their Inmate Debit account. The Company’s system automatically informs the Inmate of the prepaid balance remaining on the Inmate Debit account prior to each call, provides prompts to place the call by entering the destination telephone number, and informs the Inmate of the rates for the call being attempted. Call charges are deducted from the prepaid account balance on a real-time basis as the call progresses. Applicable state taxes and fees are in addition to the rates and charges for calling service. During an Inmate Debit call, when the prepaid account balance is one minute prior to depletion, the Inmate will be interrupted with such an announcement.

Inmate Debit services are available twenty-four (24) hours a day, seven (7) days per week to all terminating locations serviced. Access to such telephone services by an Inmate may be subject to time-of-day and usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest one (1) cent on a per call basis. Prepaid balances are not charged for incomplete calls.

Refunds of unused Inmate Debit account balances are issued by the entity controlling the actual cash deposits, which is either the Company, the commissary, the Confinement Facility or its agent, depending on the specific arrangements, unless otherwise directed by state law. Depending on the entity issuing the refund, refund fees and minimum refund amounts may apply. The prepaid balance expires ninety (90) days from the date of the last call placed on the Inmate Debit account unless alternative arrangements are expressly requested by the Confinement Facility. No refunds of unused balances will be issued after the expiration date.

Rates – General Information

The rates stated above are Securus’s standard rates throughout Texas and are provided for informational purposes only. The exact price for any specific service at any particular correctional facility may be set on an individual contract basis by agreement between Securus and the government or private entity responsible for the facility. To obtain exact pricing information for any service at a particular correctional facility in either English or Spanish, users must contact Securus at 800-844-6591. The hours during which these services will be available, limits on length and number of calls, and the numbers inmates may call are set by the entity responsible for the facility and not by Securus.

Rates – Bill Statement Fee

An undiscountable bill statement fee of $3.49 may be applied to an end user’s local exchange carrier bill in each month in which collect calls from confinement facilities are billed, regardless of the number of calls accepted. The bill statement fee is a monthly charge to recover some of the company’s expenses associated with calls from confinement facilities served by the company and that are billed through local exchange carriers. No fee will be assessed in any month if no collect calls are accepted. This fee will not be assessed on end users that prepay for their services or those that are directly billed by the company.

Rates – Pay Telephone Use Charge

An undiscountable per call charge of $0.60 is applicable to all intrastate, interstate and international calls that originate from any domestic pay telephone used to access the Company’s services. This surcharge, which is in addition to standard usage charges and any applicable service charges and surcharges associated with the Company’s services, applies for the use of the instrument used to access the Company’s service and is unrelated to the service accessed from the pay telephone. This charge does not apply to calls placed from pay telephones which the caller pays for the call by inserting coins during the progress of the call.

Rates – SECUREvoice™

SECUREvoice™ provides validation of inmate personal identification numbers (PINs) through voice verification technology for purposes of improved security and reduced potential of fraud and consumer harassment by inmates. Where installation of SECUREvoice™ is requested by confinement facilities, a per call service charge of $0.25 applies in addition to all applicable message charges, operator assistance service charges and other miscellaneous service charges.

Return Check Charge

A return check charge of $25.00 will be assessed for checks returned for insufficient funds.

Transaction Processing Fee

A convenience fee of up to $9.95 is applicable to credit and debit card payments submitted to the Company via the Securus automated system or the Securus call center. A convenience fee of up to $7.95 is applicable to credit and debit card payments submitted to the Company via the Securus website. These fees do not apply to payments mailed to the company or submitted via a customer’s online banking service.

Effective date: May 19, 2014
Rates – General Information (Continued)

Location Validation Fee - At facilities where applicable, a four percent (4%) per-call surcharge will be applied to the base rate of all call types. The base rate of a call is set forth in the Rates and Service Charges for Operator Assisted Collect Calls Section and does not include any applicable taxes that may apply to the call. The Location Validation Fee is applied to calls originating from facilities that have elected to utilize Securus’ Location Based Services technology and recovers the cost of verifying the geographic location of the called party for security purposes pursuant to Correctional Institution contracts. The Location Validation Fee will not be assessed on End Users who are billed for services through their LECs.

State Cost Recovery Fee - Securus reserves the right to impose a State Cost Recovery Fee of up to five percent (5%) administered as a per-call surcharge applied to the base rate of all intrastate calls originating from facilities in order to partially recover expenses incurred with regard to operating as a regulated entity within the state. The base rate of a call is set forth in the Rates and Service Charges for Operator Assisted Collect Calls Section and does not include any applicable taxes that may apply to the call. Costs include, but are not limited to, such items as expenses associated with billing, collecting and remitting state USF as applicable, complying with mandatory state filings and reporting obligations, state regulatory fees, expenses for state regulatory proceedings and compliance, portions of local and state property taxes associated with intrastate calling and other non-income-tax related tax costs associated with intrastate calling and compensating other carriers for terminating calls within the state using their facilities. The State Cost Recovery Fee will not be assessed on End Users who are billed for services through their LECs.

Prepaid Expiration and Refund Policy - The End User may request a refund of the available balance in an AdvanceConnect Account either by written request to the Company or by contacting the Company at its toll free telephone number once the End User verifies certain account information. Any such unused balances will expire in one hundred eighty (180) days following the last call made, unless the balance is either fully depleted or a refund has been requested. Refunds are subject to a processing fee of up to $4.95 and no refunds will be issued for accounts reflecting a balance of $4.95 or less; this refund policy is applicable only to accounts established on or after November 1, 2008. No refunds of unused balances will be issued after the expiration date.

Wireless Administration Fee – A monthly fee of up to $3.99 is applicable to any AdvanceConnect account with a wireless telephone number included as a number authorized to receive calls. This fee applies once per month, per account regardless of the number of wireless telephone numbers authorized. The fee amount will be deducted from the AdvanceConnect account balance on a monthly basis as long as a wireless number remains on the AdvanceConnect account. As of the initial effective date of this fee, existing AdvanceConnect accounts with existing authorized wireless numbers will be Grandfathered and the Wireless Administration Fee will not apply. If an existing AdvanceConnect account adds or changes a wireless number on the account, the Wireless Administration Fee will apply going forward.

Effective date: May 19, 2014
Rates – General Information (Continued)

**Inmate Debit** is a prepaid telephone account offering made available to Inmates by the Company when permitted by the Confinement Facility. Inmates fund and replenish their Inmate Debit account through electing to transfer funds from either their facility’s inmate trust fund or commissary account to their Inmate Debit account. Inmate Debit accounts may also be funded by inmate friends and family members via the Company’s points-of-sale. Funds placed in this account become the property of the inmate.

Refunds of unused Inmate Debit account balances are issued by the entity controlling the actual cash deposits, which is either the Company, the commissary, the Confinement Facility or its agent, depending on the specific arrangements, unless otherwise directed by state law. Depending on the entity issuing the refund, refund fees and/or minimum refund amounts may apply. The prepaid balance expires ninety (90) days from the date of the last call placed on the Inmate Debit account unless alternative arrangements are expressly requested by the Confinement Facility. No refunds of unused balances will be issued after the expiration date.

SERVICES AND RATE SCHEDULE

General

Service is offered to Inmates of Correctional Institutions in Wyoming. Securus Technologies, Inc.’s (“Securus”) service provides automated operator assisted calling for collect calls. Responsibility for payment of charges for calls must be accepted by the Called Party. At the discretion of the institution's administration, service may be limited or restricted for reasons of fraud prevention, security or control.

Charges for calls on Securus’s service are computed and billed individually for each call placed through the Company. Rates vary by time of day and day of week. Charges also vary based on call duration. Calls are billed based on usage of Securus’s service. No installation charges or fixed monthly recurring charges apply.

Timing of Calls

- Long distance usage charges are based on actual usage of Securus’s network. Timing of a call begins when the Called Party accepts the charges for the call.
- Chargeable time for a call ends upon disconnection by either party.
- The minimum call duration and initial period for billing purposes is one minute.
- Unless otherwise specified in this Rate Schedule, for billing purposes usage is measured and rounded to the next higher full minute.
- No charges apply for incomplete calls or for calls to called parties who do not accept charges for the call (calls are terminated upon the Called Party's refusal to accept responsibility for charges.)

The appropriate rates apply for day, evening and night/weekend calls based on the following chart.

Institutional Collect-Only Calling Service

Institutional operator assisted service allows Inmates to place collect calls through an automated call processing system. The call processing system prompts the Inmate and the called party such that the call is completed without live operator assistance. Calls are placed on a collect-only basis to the called party. If a call is not accepted within five (5) seconds of the automated voice recording prompt, the automated recording is replayed a second time. If an acceptance digit is not received five (5) seconds after the second recording is completed, the call is terminated by Securus’s system.

A number of special blocking and screening capabilities are available with institutional operator services provided by Securus. These capabilities allow Institutions to control Inmate access to telecommunications services, reduce fraudulent use of the Company's services, and eliminate harassing calls to persons outside the Institution.

For services provided to Inmates of Institutions, the following special conditions apply:

- Calls to "900", "976" or other pay-per-call services are blocked by Securus.

- At the request of the Institution, Securus may block Inmate access to toll-free numbers (e.g., 800, 888) and dialing sequences used to access other carriers or operator service providers (e.g., 950-XXXX, 10XXXX).

- At the request of the Institution, Securus may block Inmate access to "911", "411", or local operators reached through "0-" dialing.

- At the request of the Institution, Securus may block Inmate access to specific telephone numbers.

- Availability of Securus's services may be restricted by the Institution to certain hours and/or days of the week.

- At the request of the Institution, no notices or signage concerning the Company's services will be posted with its instruments. Information concerning Securus's services is provided to the administration of each Institution where the Company's services are offered. Inmates may obtain information regarding rates and charges by requesting such information from the Institution's administration.

- At the request of the Institution, Securus may impose time limits on local and long distance calls placed using its services.

- At the request of the Institution, equipment may be provided which permits monitoring of Inmate calls by legally authorized government officials.

Public Telephone Surcharge

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services. This surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access the Company's service and is unrelated to the service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol).

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.

Rate Per Call $0.26

Prepaid Service

Prepaid Calling Cards and Debit Accounts

Where offered by the Confinement Facility, Inmates may either purchase a Prepaid Calling Card or set up a Prepaid Debit Account for calls made by the Inmate User or Authorized User. Prepaid Calling Cards and Debit Accounts provide an alternative method to make calls and are designed for those Inmates who prefer to prepay for their calls. Calls are made by dialing a special access dialing sequence that connects directly to the Company’s network at the Confinement Facility. A valid Authorization Code must be entered to access the account.

The Company’s system automatically informs the Inmate User or Authorized User of the Prepaid Balance remaining on the Prepaid Calling Card or in the Prepaid Debit Account, and provides prompts to place the call by entering the destination telephone number with area code. Network usage is deducted from the Prepaid Balance on a real time basis as the call progresses. Applicable state taxes and fees are included in the rates and charges for the calls made. On Prepaid Calling Card and Prepaid Debit Account calls, when the Prepaid Balance is one minute prior to depletion, the Inmate User or Authorized User will be interrupted with such an announcement.

Prepaid Calling Card and Debit Account services are available twenty-four (24) hours a day, seven (7) days per week to all terminating locations serviced. Access to such telephone services by an Inmate User may be subject to time-of-day an usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest one (1) cent on a per call basis. Prepaid Balances are not charged for incomplete calls.

Prepaid Calling Cards

The Confinement Facilities that offer the option of Prepaid Calling Cards may purchase Prepaid Calling Cards directly from the Company. Inmates then purchase the Cards from authorized personnel at the Confinement Facilities. The Company does not engage in direct monetary transactions with the Inmate. The Inmate may purchase a Prepaid Calling Card in denominations determined by the Confinement Facility. Prepaid Calling Cards are offered only to Inmates at Confinement Facilities and not to the general public. Prepaid Calling Cards are valid for one hundred eighty (180) days from the date of first usage. Unused Prepaid Balances may be used by the Inmate User or Authorized User following release from the Confinement Facility only through the Company’s network by dialing a special toll free access number with automatically connects the call to the Company’s network. Unused Prepaid Balances are not refundable nor may Prepaid Calling Cards be replenished upon the depletion of the Prepaid Balance. Inmates may purchase additional cards, as permitted by their Confinement Facility.

Prepaid Debit Accounts

For a Prepaid Debit Account, the Inmate may set up the account through the Confinement Facility administrators with an initial payment typically through the Inmate’s commissary account, in those Confinement Facilities where this service is available. Upon the depletion of the Prepaid Balance, the Prepaid Debit Account may be replenished by depositing funds into the Account via the Confinement Facility administrator. Prepaid Debit Accounts are considered dormant if there is no activity for one hundred eighty (180) days following the last call made. Inactive accounts will be removed from the Company’s system. In conjunction with their release from the Confinement Facility, the Inmate may request a refund from the Confinement Facility administrator.

AdvanceConnect Accounts

End Users who prefer to pay in advance for Collect Calls that originate from Confinement Facilities, or else if the End User’s local exchange carrier does not have a billing and collection agreement with the Company or its intermediary, may set up an AdvanceConnect Account with the Company with a minimum initial fifty dollar ($50) payment. The Account is set up with the initial payment and may be replenished by the End User. Applicable state taxes and fees are calculated and deducted from the balance at the conclusion of the call.

When the balance in an AdvanceConnect Account reaches twenty dollars ($20) or below, the End User will receive an automated courtesy call from the Company notifying the End User with such an announcement. If the End User’s balance reaches zero prior to replenishment of the Account, the End User will be blocked from receiving further calls from any Confinement Facility served by the Company until the balance is replenished or an alternative billing arrangement is made.

The End User may request a refund of the available balance in the AdvanceConnect Account either by written request to the Company or by contacting the Company at its toll free telephone number once the End User verifies certain account information. Any such unused balances will expire in one hundred eighty (180) days following the last call made, unless the balance is either fully depleted or a refund has been requested. Refunds are subject to a processing fee of up to $4.95 and no refunds will be issued for accounts reflecting a balance of $4.95 or less; this policy applies only to accounts established on or after November 1, 2008. No refunds of unused balances will be issued after the expiration date.

AdvanceConnect Account service is available twenty-four (24) hours a day, seven (7) days a week to all terminating locations served. Access to such services by the Inmate User may be subject to time-of-day and usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest one (1) cent on a per call basis. Wireless Administration Fee – a monthly fee of up to $3.99 is applicable to any AdvanceConnect account with a wireless telephone number included as a number authorized to receive calls. This fee applies once per month, per account regardless of the number of wireless telephone numbers authorized. The fee amount will be deducted from the AdvanceConnect account balance on a monthly basis as long as a wireless number remains on the AdvanceConnect account. As of the initial effective date of this fee, existing AdvanceConnect accounts with existing authorized wireless numbers will be Grandfathered and the Wireless Administration Fee will not apply. If an existing AdvanceConnect account adds or changes a wireless number on the account, the Wireless Administration Fee will apply going forward.

Inmate Debit

Inmate Debit is a prepaid telephone account offering made available to Inmates by the Company when permitted by the Confinement Facility. Inmate Debit provides an alternative method for Inmates to prepay for and make calls. An Inmate Debit account associated with the Inmate’s Personal Identification Number (PIN) is automatically established by the Company. Inmates fund and replenish their Inmate Debit account through electing to transfer funds from either their facility’s inmate trust fund or commissary account to their Inmate Debit account. Inmate Debit accounts may also be funded by inmate friends and family members via the Company’s points-of-sale. Funds placed in this account become the property of the inmate.

Inmate Debit calls are processed by dialing a special access dialing sequence that connects directly to the Company’s network at the Confinement Facility. Inmates must enter a valid Authorization Code to access their Inmate Debit account. The Company’s system automatically informs the Inmate of the prepaid balance remaining on the Inmate Debit account prior to each call, provides prompts to place the call by entering the destination telephone number, and informs the Inmate of the rates for the call being attempted. Call charges are deducted from the prepaid account balance on a real-time basis as the call progresses. Applicable state taxes and fees are in addition to the rates and charges for calling service. During an Inmate Debit call, when the prepaid account balance is one minute prior to depletion, the Inmate will be interrupted with such an announcement.

Inmate Debit services are available twenty-four (24) hours a day, seven (7) days per week to all terminating locations serviced. Access to such telephone services by an Inmate may be subject to time-of-day and usage restrictions imposed by individual Confinement Facilities. No minimum service period applies. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest one (1) cent on a per call basis. Prepaid balances are not charged for incomplete calls.

Refunds of unused Inmate Debit account balances are issued by the entity controlling the actual cash deposits, which is either the Company, the commissary, the Confinement Facility or its agent, depending on the specific arrangements, unless otherwise directed by state law. Depending on the entity issuing the refund, refund fees and/or minimum refund amounts may apply. The prepaid balance expires ninety (90) days from the date of the last call placed on the Inmate Debit account unless alternative arrangements are expressly requested by the Confinement Facility. No refunds of unused balances will be issued after the expiration date.
